Member Identification (ID) Cards

Every person who becomes a member of UnitedHealthcare Community Plan gets an ID card. The ID card gives the doctor and office staff important information about you/your child. You/your child will get a new ID card if you change your/your child’s Primary Care Physician (PCP) or meet the family copayment limits.

Check your/your child’s card to make sure the information is right.

If you/your child get an ID card that has no PCP name but says to call 1-888-887-9003, please call Member Services to pick a PCP. CHIP Perinate Member ID cards will not have a PCP name listed.

How to read your/your child’s UnitedHealthcare Community Plan ID card.

Your/your child’s ID card will say CHIP and will have the UnitedHealthcare Community Plan logo. This will let your/your child’s health care provider know that you/your child is a UnitedHealthcare Community Plan member.

How to Use Your/Your Child’s ID Card

Give your/your child’s ID card to the doctor to verify coverage when getting services. The ID card is not a guarantee of benefits or coverage.

Your/your child’s UnitedHealthcare Community Plan card is in English and Spanish, and has the following information on it:

- Member’s name.
- Member’s ID number.
- Doctor’s name and phone number. (CHIP Perinate Member ID cards will not have a PCP name listed.)
- Toll-free number for UnitedHealthcare Community Plan Member Services (1-888-887-9003, for hearing impaired TDD/TTY 711).
- Toll-free number for 24 hour a day/7 day a week access to Behavioral Health Services (1-800-495-5660).
- Directions on what to do in an emergency.

How to Replace Your/Your Child’s Card if It Is Lost

If you lose your/your child’s UnitedHealthcare Community Plan ID card, call Member Services right away at 1-888-887-9003. Member Services will send you a new one. Call TDD/TTY 711 for hearing impaired.

Remember to take your/your child’s card with you and present it whenever your child gets services. Your/your child’s provider will need the information on the card to find out what your/your child’s coverage is.
What Is a Primary Care Provider (PCP)?

Your/your child’s PCP has the job of taking care of you/your child. Regular checkups with your/your child’s PCP are important and can help you/your child stay healthy. You/your child’s PCP will do regular health tests that can find problems. Finding and treating problems early can prevent them from becoming bigger problems later. Your/your child’s PCP will be your/your child’s personal doctor. Your/your child’s PCP will take care of you/your child and refer you/your child to a specialist when needed. You should talk to your child’s PCP about all of your/your child’s health care needs.

Always talk to your/your child’s PCP when you want to visit another doctor. Your/your child’s PCP will give you a referral form if you need one.

Your relationship with your/your child’s PCP is important. Get to know your/your child’s PCP as soon as possible. It is important to follow the provider’s advice.

A good way to build a relationship with your/your child’s PCP is to call and schedule a well-child visit or regular checkup. You can meet your/your child’s PCP then. He or she will get to know your/your child’s medical history, any medications you/your child is taking and any other health problems.

In special cases, a specialist may be your/your child’s PCP. You, the PCP, the specialist and UnitedHealthcare Community Plan will make this decision. Please call Member Services for information.

Don’t forget that your/your child’s PCP is the first one you call with any health problems or questions.

How do I pick a PCP?

Call Member Services for help in choosing a PCP. All members of UnitedHealthcare Community Plan must pick a PCP. You can also ask for a UnitedHealthcare Community Plan Provider Directory by calling Member Services at 1-888-887-9003.

If you are a UnitedHealthcare Community Plan Member when you have your baby, your baby is enrolled with UnitedHealthcare Community Plan on his/her date of birth. UnitedHealthcare Community Plan gets information from the hospital to add your baby as a new UnitedHealthcare Community Plan Member.

However, it is IMPORTANT that YOU contact the Texas CHIP Program to also report the birth of your baby, so your baby can get all the health care he/she needs.

As soon as UnitedHealthcare Community Plan knows you are pregnant, we send you information about your pregnancy and your unborn baby. UnitedHealthcare Community Plan will ask you to choose a doctor for your baby, even before the baby is born. This will ensure that your baby’s doctor will check the baby while in the hospital, and then take care of your baby’s health care needs after you and the baby are discharged from the hospital.
After the baby is born, UnitedHealthcare Community Plan is told about your baby’s birth. We enter your baby’s information in our system.

If you have not selected a doctor for the baby before birth, you will be contacted to select a doctor for your baby. After the baby is 30 days old, you can also change the doctor for the baby if you want a different doctor than the one you originally picked.

**What do I need to bring to my/my child’s doctor’s appointment?**
You must take your/your child’s UnitedHealthcare Community Plan ID card with you when you get any health care services. You will need to show your child’s UnitedHealthcare Community Plan ID card each time you/your child needs services. If you/your child has a new doctor, bring any important records you may have, like your/your child’s immunization records.

**Can a clinic be my/my child’s PCP?**
Your/your child’s PCP can be a doctor, a clinic, a Rural Health Center (RHC) or a Federally Qualified Health Center (FQHC). If you have questions, please call Member Services at 1-888-887-9003.

**How can I change my/my child’s PCP?**
It is good to stay with the same PCP. Your child’s PCP knows you/your child, has your/your child’s medical records, and knows what medications you/your child takes. Your/your child’s PCP is the best person to make sure your child is getting good medical care. Call Member Services if you decide you want to change your/your child’s PCP.

**How many times can I change my/my child’s PCP?**
There is no limit on how many times you can change your or your child’s primary care provider. You can change primary care providers by calling us toll-free at 1-888-887-9003 or writing to us at:

UnitedHealthcare Community Plan  
14141 Southwest Freeway, Suite 800  
Sugar Land, TX 77478

**When will a PCP change become effective?**
The PCP change will become effective the day following the change.

**Reasons you might change your/your child’s PCP:**
• You have moved and you need a PCP that is closer to your home.  
• You are not happy with your/your child’s PCP.

**Are there any reasons why a request to change a primary care provider may be denied?**
• You asked for a PCP who is not part of the UnitedHealthcare Community Plan network.  
• You asked for a PCP who is not accepting new patients because he or she is seeing too many patients.
Can a PCP move me or my child to another PCP for non-compliance?
Yes, if your/your child’s PCP does not feel you are following his/her medical advice or if you/your child miss a lot of visits, the doctor can ask you to see another doctor. Your/your child’s PCP will send you a letter telling you that you need to find another doctor. If this happens, call Member Services at 1-888-887-9003. We will help you find another doctor.

What if I choose to go to another doctor who is not my/my child’s primary care provider?
If you go to another doctor who is not your child’s PCP without the referral of your/your child’s PCP or without getting approval from UnitedHealthcare Community Plan, you may be billed and may have to pay for those services.

Your/your child’s PCP is the best person to help ensure you are/your child is getting good medical care.

How do I get health care after my/my child’s PCP’s office is closed?
It is best to call your/your child’s PCP as soon as you/your child is sick. Do not wait until the evening or a weekend to call your/your child’s PCP if you can get help during the day. Your/your child might get worse as the day goes on. If you/your child gets sick during the night or on a weekend, call your/your child’s PCP at the phone number on the front of your child’s ID card.

If you cannot reach your/your child’s doctor or want to talk to someone while you wait for the doctor to call you back, call NurseLine at 1-800-850-1267. Our nurses are ready to help you 24 hours a day, 7 days a week. If you think you have a real emergency, call 911 or go to the nearest Emergency Room.

What if my doctor leaves the UnitedHealthcare Community Plan network?
If your/your child’s doctor leaves the UnitedHealthcare Community Plan network, and that doctor is treating you/your child for an illness, UnitedHealthcare Community Plan will work with the doctor to keep caring for you/your child until you can be moved to a new doctor in the network. Call Member Services at 1-888-887-9003 for help picking a new doctor close to you.

Physician Incentive Plans
UnitedHealthcare Community Plan rewards doctors for treatments that reduce or limit services for people covered by CHIP. This is called a physician incentive plan. You have the right to know if your primary care provider (main doctor) is part of this physician incentive plan. You also have a right to know how the plan works. You can call 1-888-887-9003 to learn more about this.
How Do I Choose a Perinatal Provider?

Will I Need a Referral for This?

If you need help choosing a Perinatal Provider, please contact Member Services at 1-888-887-9003. You will not need a referral for this service.

How soon can I be seen after contacting a Perinatal Provider for an appointment?

You should be able to see your Perinatal Provider within two weeks of calling them. If you have any problem getting a visit within two weeks of calling your Perinate Provider, please call UnitedHealthcare Community Plan at 1-888-887-9003.

Can I stay with a CHIP Perinatal Provider if they are not with my health plan?

You should try to choose a CHIP Perinatal Provider that is in your health plan’s CHIP Perinatal Provider Network. If you have 12 weeks or less remaining before the expected delivery date of your baby, you can stay under your current Perinatal Provider through your postpartum checkup, even if the Perinatal Provider is, or becomes, out of network. Please contact Member Services.

What if I choose to go to another doctor who is not my CHIP Perinatal Provider?

Except in emergencies, always call your CHIP Perinatal Provider before you go to another doctor or the hospital. You can reach your CHIP Perinatal Provider or backup doctor 24 hours a day, 7 days a week. If you go to another doctor who is not your CHIP Perinatal Provider, you may need to pay the bill. If your emergency care is not related to labor with the birth of your child, you will have to apply for Emergency Medicaid or pay for the services yourself.

What do I need to bring to a Perinatal Provider’s appointment?

When you go to your visit, always take your UnitedHealthcare Community Plan Member ID card, a list of problems you are having, and a list of all prescription drugs or herbal medications you are taking.

Can a clinic be a Perinatal Provider?

Your Perinatal Provider can be a doctor, a clinic, a Rural Health Center (RHC) or a Federally Qualified Health Center (FQHC). If you have questions, please call Member Services at 1-888-887-9003.

How do I get after-hours care?

Please call your pregnancy doctor. If you cannot reach your doctor or want to talk to someone while you wait for the doctor to call you back, call NurseLine at 1-800-850-1267. Our nurses are ready to help you 24 hours a day, 7 days a week. If you think you have a real emergency, call 911 or go to the nearest emergency room.
Changing Health Plans for CHIP Members

What if I want to change health plans?
You are allowed to make health plan changes:

• For any reason within 90 days of enrollment in CHIP and once thereafter;
• For cause at any time;
• If you move to a different service delivery area; and
• During the annual CHIP re-enrollment period.

Who do I call?
For more information, call CHIP toll-free at 1-800-647-6558.

When will my health plan change become effective?
If you call to change your health plan on or before the 15th of the month, the change will take place on the first day of the next month. If you call after the 15th of the month, the change will take place the first day of the second month after that. For example:

• If you call on or before April 15, your change will take place on May 1.
• If you call after April 15, your change will take place June 1.

Can UnitedHealthcare Community Plan ask that I get dropped from their health plan?
Yes. UnitedHealthcare Community Plan might ask that a Member be taken out of the plan for “good cause.” “Good Cause” could be, but is not limited to:

• Fraud or abuse by a Member;
• Threats or physical acts leading to harming of UnitedHealthcare Community Plan staff or providers;
• Theft;
• Refusal to go by UnitedHealthcare Community Plan’s policies and procedures, like:
  – Letting someone use your ID card;
  – Missing visits over and over again;
  – Being rude or acting out against a provider or a staff person; or
  – Using a doctor that is not a UnitedHealthcare Community Plan provider.

UnitedHealthcare Community Plan will not ask you to leave the program without trying to work with you. If you have any questions about this process, call UnitedHealthcare Community Plan at 1-888-887-9003. The Texas Health and Human Services Commission will decide if a Member can be told to leave the program.
Changing Health Plans for CHIP Perinatal Members

- **Attention:** If you meet certain income requirements, your baby will be moved to Medicaid and get 12 months of continuous Medicaid coverage from date of birth.

- Your baby will continue to receive services through the CHIP Program if you meet the CHIP Perinatal requirements. Your baby will get 12 months of continuous CHIP Perinatal coverage through his or her health plan, beginning with the month of enrollment as an unborn child.

**What if I want to change health plans?**

- Once you pick a health plan for your unborn child, the child must stay in this health plan until the child’s CHIP Perinatal coverage ends. The 12 month CHIP Perinatal coverage begins when your unborn child is enrolled in CHIP Perinatal and continues after your child is born.

- If you live in an area with more than one CHIP health plan, and you do not pick a plan within 15 days of getting the enrollment packet, HHSC will pick a health plan for your unborn child and send you information about that health plan. If HHSC picks a health plan for your unborn child, you will have 90 days to pick another health plan if you are not happy with the plan HHSC chooses.

- If you have children covered by CHIP, their health plans might change once you are approved for CHIP Perinatal coverage. When a member of the family is approved for CHIP Perinatal coverage and picks a perinatal health plan, all children in the family that are enrolled in CHIP must join the health plan providing the CHIP Perinatal services. The children must remain with the same health plan until the end of the CHIP Perinatal member’s enrollment period, or the end of the other children’s enrollment period, whichever happens last. At that point, you can pick a different health plan for the children.

- You can ask to change health plans:
  - For any reason within 90 days of enrollment in CHIP Perinatal;
  - If you move into a different service delivery area; and
  - For cause at any time.

**Who do I call?**

For more information, call toll-free at 1-800-647-6558.
Concurrent Enrollment of Family Members in CHIP and CHIP Perinatal and Medicaid Coverage for Certain Newborns

If you have children covered by CHIP, their health plans might change once you are approved for CHIP Perinatal coverage. When a member of the family is approved for CHIP Perinatal coverage and picks a perinatal health plan, all children in the family that are enrolled in CHIP must join the health plan providing the CHIP Perinatal services. The children must remain with the same health plan until the end of the CHIP Perinatal member’s enrollment period, or the end of the other children’s enrollment period, whichever happens last. Then, you can pick a different health plan for the children.

Copayments, cost-sharing, and enrollment fees still apply for those children enrolled in the CHIP program.

An unborn child who is enrolled in CHIP Perinatal will be moved to Medicaid and get 12 months of continuous Medicaid coverage from date of birth, if your family’s income is at or below 185% of the Federal Poverty Level.

Your baby will continue to receive coverage through the CHIP Program as a CHIP Perinate Newborn if your family’s income is above 185% of the Federal Poverty Level up to 200% of the Federal Poverty Level. Your baby will get 12 months of continuous CHIP Perinatal coverage through his or her health plan, beginning with the month of enrollment as an unborn child.
How Do I Make Appointments?

Call your/your child’s PCP when you/your child need medical care. Your/your child’s PCP will arrange for the care you/your child needs. The name and phone number of your/your child’s PCP is on your/your child’s UnitedHealthcare Community Plan ID card.

When making appointments, the sicker your child is, the sooner your child needs to see the doctor.

What do I need to bring with me to my appointment?

When you go to your appointment, always take your UnitedHealthcare Community Plan Member ID Card, a list of problems you are having, and a list of all prescription drugs or herbal medications you are taking.

How do I get health care after my/my child’s PCP’s office is closed?

It is best to call your/your child’s PCP as soon as you/your child needs health care. Do not wait until the evening or a weekend to call your/your child’s PCP if you can get help during the day. Your/your child’s illness might get worse as the day goes on. If you/your child gets sick during the night or on a weekend and cannot wait for help, call your/your child’s PCP at the phone number on the front of your child’s ID card.

If you cannot reach your/your child’s doctor or want to talk to someone while you wait for the doctor to call you back, call NurseLine, UnitedHealthcare Community Plan’s nurse helpline, at 1-800-850-1267. How do I get these services/How do I get these services for my child?
You can get these benefits by calling Member Services at 1-888-887-9003.

Are there any limits to any covered services?
Covered CHIP services must meet the CHIP definition of Medically Necessary Covered Services. There is no lifetime maximum on benefits; however, 12-month period or lifetime limitations do apply to certain services, as specified in the following chart. Copays apply until a family reaches its specific cost-sharing maximum.

How much do I pay for health services?
The table on the next page shows the CHIP copayments according to your family income. Copayments are paid by you to the health care provider (at time of service) when they provide you medical services or prescription drugs. There are no copayments for preventive care such as well-child or well-baby visits or immunizations. CHIP Perinate and Newborn members, American Indian members and Alaskan Native members do not pay any enrollment fees or copayments.

Your child’s health plan ID card will show the copayments that apply to your family. Show your child’s ID card at all office visits or if you need emergency room services or have a prescription filled.

Families may be required to pay an enrollment fee. These fees may be from $0 to $50. This amount is paid only when you re-enroll your child(ren) every year.

The Member Guide you got when you enrolled in CHIP has a tear-out form that you should use to keep track of your child’s CHIP costs. To make sure that you do not go above your out-of-pocket limits, please keep track of your CHIP-related expenses on this form.

The enrollment packet welcome letter tells you exactly how much you must spend before you are able to mail the form back to CHIP. If you cannot find your welcome letter, please call CHIP at 1-800-647-6558 and they will tell you what your limit is.

When you reach your annual out-of-pocket expenses, please send the form to CHIP and they will notify us. We will issue you a new member ID card. This new card will show that no copayments are due when your child gets medical services. CHIP and CHIP Perinate Members may have to pay for non-covered services.
What Are Copayments?

How much are they and when do I have to pay them?
Copayments for medical services or prescription drugs are paid to the health care provider at the time of service. You do not have to pay copayments for preventive care such as well-child or well-baby visits or immunizations. Your/your child’s UnitedHealthcare Community Plan card lists the copayments that apply to your family. Present your card when you/your child get office visits or emergency room services or has a prescription filled.

The table below lists the CHIP copayment schedule. It is listed according to a family’s income. There are no copayments for CHIP Perinate Program members.

What if I Get a Bill From My Child’s Doctor?
What Information Will They Need?
Who Do I Call?

If you get a bill from a doctor, hospital or other health care provider, ask why they are billing you. Your child’s doctor, health care provider or hospital cannot bill you for covered and approved CHIP services. You do not have to pay bills that UnitedHealthcare Community Plan should pay.

If you still get a bill, call Member Services at 1-888-887-9003 for help.

Be sure you have your bill in front of you when you call. You will need to tell Member Services who sent you the bill, the date of service, the amount and the provider’s address and phone number.
What Benefits Does My Baby Receive at Birth?

An unborn child will continue to receive coverage through CHIP Perinatal after birth if the child lives in a family with an income above 185% to 200% FPL.

There is no lifetime maximum on benefits; however, 12-month enrollment period or lifetime limitations do apply to certain services. Copays do not apply to CHIP Perinatal Members. CHIP Perinate Newborns are eligible for 12-months continuous coverage, beginning with the month of enrollment as a CHIP Perinate Newborn.

You can get these benefits by calling Member Services at 1-888-887-9003.

What if I/My Child Needs to See a Special Doctor (Specialist)?

A specialist has received training and has more experience taking care of certain diseases, illnesses and injuries. UnitedHealthcare Community Plan has many specialists who will work with you and your PCP to care for your/your child’s needs.

What is a referral?
Your/your child’s PCP will talk to you about your/your child’s needs and will help make plans for you to see the specialist that can provide the best care for you/your child. This is called a referral. Your/your child’s doctor is the only one that can give you a referral to see a specialist. If you/your child has a visit, or receives services from a specialist without your doctor’s referral, or if the specialist is not a UnitedHealthcare Community Plan provider, you might be responsible for the bill. In some cases, an OB/GYN can also give you a referral for related services.

How can I ask for a second opinion?
You have the right to a second opinion from a UnitedHealthcare Community Plan provider if you are not satisfied with the plan of care offered by the specialist. Your primary care doctor should be able to give you a referral for a second opinion visit. If your doctor wants you to see a specialist that is not a UnitedHealthcare Community Plan provider, that visit will have to be approved by UnitedHealthcare Community Plan. You can call Member Services at 1-888-887-9003 for help with getting a second opinion.

Member Rights and Responsibilities for CHIP Members and CHIP Perinate Newborn Members

Member rights.

1. You have the right to get accurate, easy-to-understand information to help you make good choices about your child’s health plan, doctors, hospitals and other providers.

2. Your health plan must tell you if they use a “limited provider network.” This is a group of doctors and other providers who only refer patients to other doctors who are in the same group. “Limited provider network” means you cannot see all the doctors who are in your health plan. If your health plan uses “limited networks,” you should check to see that your child’s PCP and any specialist doctor that you might like to see are part of the same “limited network.”

3. You have the right to know how your doctors are paid. Some get a fixed payment no matter how often you visit. Others get paid based on the services they give to your child. You have a right to know about what those payments are and how they work.

4. You have a right to know how the health plan decides whether a service is covered and/or medically necessary. You have the right to know about the people in the health plan who decide those things.

5. You have a right to know the names of the hospitals and other providers in your health plan and their addresses.

6. You have a right to pick from a list of health care providers that is large enough so that your child can get the right kind of care when your child needs it.

7. If a doctor says your child has special health care needs or a disability, you may be able to use a specialist as your child’s PCP. Ask your health plan about this.

8. Children who are diagnosed with special health care needs or a disability have the right to special care.

9. If your child has special medical problems, and the doctor your child is seeing leaves your health plan, your child may be able to continue seeing that doctor for three months, and the health plan must continue paying for those services. Ask your plan about how this works.

10. Your daughter has the right to see a participating obstetrician/gynecologist (OB/GYN) without a referral from her primary care provider and without first checking with your health plan. Ask your plan how this works. Some plans may make you pick an OB/GYN before seeing that doctor without a referral.

11. Your child has the right to emergency services if you reasonably believe your child’s life is in danger, or that your child would be seriously hurt without getting treated right away. Coverage of emergencies is available without first checking with your health plan. You may have to pay a copayment depending on your income. Copayments do not apply to CHIP Perinatal Members.

12. You have the right and responsibility to take part in all the choices about your child’s health care.

13. You have the right to speak for your child in all treatment choices.

14. You have the right to get a second opinion from another doctor in your health plan about what kind of treatment your child needs.
15. You have the right to be treated fairly by your health plan, doctors, hospitals and other providers.

16. You have the right to talk to your child’s doctors and other providers in private, and to have your child’s medical records kept private. You have the right to look over and copy your child’s medical records and to ask for changes to those records.

17. You have the right to a fair and quick process for solving problems with your health plan and the plan’s doctors, hospitals and others who provide services to your child. If your health plan says it will not pay for a covered service or benefit that your child’s doctor thinks is medically necessary, you have a right to have another group, outside the health plan, tell you if they think your doctor or the health plan was right.

18. You have a right to know that doctors, hospitals, and others who care for your child can advise you about your child’s health status, medical care, and treatment. Your health plan cannot prevent them from giving you this information, even if the care or treatment is not a covered service.

19. You have a right to know that you are only responsible for paying allowable copayments for covered services. Doctors, hospitals, and others cannot require you to pay any other amounts for covered services.

**Member responsibilities.**

You and your health plan both have an interest in seeing your child’s health improve. You can help by assuming these responsibilities.

1. You must try to follow healthy habits. Encourage your child to stay away from tobacco and to eat a healthy diet.

2. You must become involved in the doctor’s decisions about your child’s treatments.

3. You must work together with your health plan’s doctors and other providers to pick treatments for your child that you have all agreed upon.

4. If you have a disagreement with your health plan, you must try first to resolve it using the health plan’s complaint process.

5. You must learn about what your health plan does and does not cover. Read your Member Handbook to understand how the rules work.

6. If you make an appointment for your child, you must try to get to the doctor’s office on time. If you cannot keep the appointment, be sure to call and cancel it.

UnitedHealthcare Community Plan members can access a UnitedHealthcare Community Plan Independent Ombudsman to assist them with resolving their complaint.

UnitedHealthcare Community Plan contracts with several non-profit organizations to provide this service to you. You can be referred to a UnitedHealthcare Community Plan Independent Ombudsman through our Member Services department by calling 1-888-887-9003.

What Can I Do if My Child’s Doctor Asks for a Service for My Child That Is Covered But UnitedHealthcare Community Plan Denies or Limits It?
UnitedHealthcare Community Plan will send you a letter if a covered service requested by your child’s PCP is denied, delayed, limited or stopped. If you are not happy with the decision, you can call Member Services at 1-888-887-9003 and ask for an appeal. We will record your verbal request. Your recording will then be made into a written request. We will send a form to you to complete, sign and return as soon as possible.

How will I find out if services are denied?
UnitedHealthcare Community Plan will send you a letter if a covered service requested by your child’s PCP is denied, delayed, limited or stopped.

What are the timeframes for the appeal process?
UnitedHealthcare Community Plan has up to 30 calendar days to decide if your request for care is medically needed and covered. We will send you a letter of our decision within 30 days. In some cases you have the right to a decision within one business day. If your provider requests, we must give you a quick decision. You can get a quick decision if your health or ability to function could be seriously hurt by waiting. You also have the right to choose a quick review from an Independent Review Organization (IRO).
When do I have the right to request an appeal?
You may request an appeal whenever you do not agree with UnitedHealthcare Community Plan’s decision to deny services or care for you/your child.

Does my request have to be in writing?
An appeal form will be included in each letter you receive when UnitedHealthcare Community Plan denies a service to you. This form must be signed and returned. You may request an appeal by phone, but an appeal form will be sent to you, which must be signed and returned.

No retaliation is allowed.
UnitedHealthcare Community Plan will not punish a member, doctor or provider for filing a complaint against UnitedHealthcare Community Plan.

Can someone from UnitedHealthcare Community Plan help me file an appeal?
Member Services is available to help you file an appeal. You can ask them to help you when you call 1-888-887-9003. They will send you an appeal request form and ask that you return it before your appeal request is taken.

What Is an Expedited Appeal?
An Expedited Appeal is when the health plan has to make a decision quickly based on the condition of your health, and taking the time for a standard appeal could jeopardize your life or health.

How do I ask for an expedited appeal?
You may ask for this type of appeal in writing or by phone. Make sure you write “I want a quick decision or an expedited appeal,” or “I feel my child’s health could be hurt by waiting for a standard decision.”

To request a quick decision by phone, call UnitedHealthcare Community Plan Member Services at 1-888-887-9003.

Does my request for an expedited appeal have to be in writing?
We can accept your request orally or in writing. Mail written requests to:

UnitedHealthcare Community Plan
Attn: Complaint and Appeals Department
P.O. Box 31364
Salt Lake City, UT 84131-0364
What are the timeframes for an expedited appeal?
UnitedHealthcare Community Plan must decide this type of appeal in one working day from the time we get the information and request.

What happens if UnitedHealthcare Community Plan denies the request for an expedited appeal?
If UnitedHealthcare Community Plan denies an expedited appeal, the appeal is processed through the normal appeal process, which will be resolved within 30 days. You will receive a letter explaining why and what other choices you may have.

Who can help me in filing an appeal or an expedited appeal?
If you/your child is in the hospital, ask someone to help you mail or call in your request for this type of appeal. You may also call UnitedHealthcare Community Plan Member Services at 1-888-887-9003 and ask someone to help you start an appeal or ask your/your child’s doctor to do it for you.

What Is an Independent Review Organization (IRO)?
An Independent Review Organization (IRO) is an outside organization that the Texas Department of Insurance (TDI) picks to review your health plan’s denial of a service you and your doctor feel is medically necessary. This organization is not related to your doctor or your health plan. There is no cost to you for this independent review.

You can ask for a review by an IRO after you complete the appeal process. An IRO is the final level of appeal for an Adverse Determination.

How do I request an IRO?
If you choose an IRO, you may contact UnitedHealthcare Community Plan Member Services at 1-888-887-9003.

What are the timeframes for this process?
When UnitedHealthcare Community Plan gets your request, we send it to the Texas Department of Insurance (TDI) within 5 calendar days.

We work with TDI and the IRO to give them all the information about your case. The IRO will let UnitedHealthcare Community Plan and YOU know what they decide. This decision is final and UnitedHealthcare Community Plan will work with you and your child’s providers to do what the IRO says must be done.

HEALTH PLAN NOTICES OF PRIVACY PRACTICES.
THIS NOTICE SAYS HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND SHARED.
IT SAYS HOW YOU CAN GET ACCESS TO THIS INFORMATION. READ IT CAREFULLY.

Effective January 1, 2016.
We must by law protect the privacy of your health information (“HI”). We must send you this notice.
It tells you:

• How we may use your HI.
• When we can share your HI with others.
• What rights you have to access your HI.

We must by law follow the terms of this notice.

“Health information” (or HI) in this notice means information related to your health or health care services that can be used to identify you. We have the right to change our privacy practices. If we change them, we will notify you by mail or e-mail, as permitted by law. If we maintain a website for your health plan, we will also post the new notice on www.UHCCommunityPlan.com. We have the right to make the changed notice apply to HI that we have now and to future information. We will follow the law and give you notice of a breach of your HI.

We collect and keep your HI so we can run our business. HI may be oral, written or electronic. We limit access to all types of your HI to our employees and service providers who manage your coverage and provide services. We have physical, electronic and procedural safeguards per federal standards to guard your HI.

How we use or share your information.
We must use and share your HI with:

• You or your legal representative.
• The Secretary of the Department of Health and Human Services.

We have the right to use and share your HI for certain purposes. This must be for your treatment, to pay for your care, and to run our business. For example, we may use and share your HI:

• For Payment. We may use or share your HI to process premium payments and claims. This also may include coordinating benefits. For example, we may tell a doctor if you are eligible for coverage and how much of the bill may be covered.
• For Treatment or Managing Care. We may share your HI with providers to help them give you care.
• For Health Care Operations Related to Your Care. We may suggest a disease management or wellness program. We may study data to see how we can improve our services.
• **To Tell You about Health Programs or Products.** We may tell you about other treatments, products, and services. These activities may be limited by law.

• **For Plan Sponsors.** We may give enrollment, disenrollment, and summary HI to your employer plan sponsor. We may give them other HI if they agree to limit its use as required by federal law.

• **For Underwriting Purposes.** We may use your HI to make underwriting decisions, but we will not use your genetic HI for underwriting purposes.

• **For Reminders on Benefits or Care.** We may use your HI to send you information on your health benefits or care and doctor’s appointment reminders.

We may use or share your HI as follows:

• **As Required by Law.**

• **To Persons Involved With Your Care.** This may be to a family member. This may happen if you are unable to agree or object. Examples are an emergency or when you agree or fail to object when asked. If you are not able to object, we will use our best judgment. If you pass away, we may share HI with family members or friends who helped with your care prior to your death unless doing so would go against wishes that you shared with us before your death.

• **For Public Health Activities.** This may be to prevent disease outbreaks.

• **For Reporting Abuse, Neglect or Domestic Violence.** We may only share with entities allowed by law to get this HI. This may be a social or protective service agency.

We may allow your dependents to ask for limits. **We will try to honor your request, but we do not have to do so.**

• **To ask to get confidential communications** in a different way or place. (For example, at a P.O. Box instead of your home.) We will agree to your request when a disclosure could endanger you. We take verbal requests. You can change your request. This must be in writing. Mail it to the address below.

We may charge for copies. We may deny your request. If we deny your request, you may have the denial reviewed.

• **To ask to amend.** If you think your HI is wrong or incomplete you can ask to change it. You must ask in writing. You must give the reasons for the change. Mail this to the address below. If we deny your request, you may add your disagreement to your HI.

• **To get an accounting** of HI shared in the six years prior to your request. This will not include any HI shared: (i) For treatment, payment, and health care operations; (ii) With you or with your consent; (iii) With correctional institutions or law enforcement. This will not list the disclosures that federal law does require us to track.
• **To get a paper copy of this notice.** You may ask for a copy at any time. Even if you agreed to get this notice electronically, you have a right to a paper copy. If we maintain a website for your health plan, you may also get a copy at our website: [www.UHCCommunityPlan.com](http://www.UHCCommunityPlan.com).
