Footnotes:

The listing of a service or CPT code above does not guarantee that it will be covered under every account-specific plan. To be reimbursable, a service provided to a beneficiary must be a covered benefit under the beneficiary's benefit plan. Lesser of logic applies. All reimbursements are less patient responsibility and represent the total allowable reimbursement, including patient responsibility, for all pre-authorized services only. Patient responsibility represents the applicable co-payment, coinsurance, and/or deductible, and is determined by type of insurance and/or benefit plan.

Reimbursement: There will be reimbursement for the transmission fee at the originating site + MH services provided based upon rates above. There will be no facility fee reimbursement for the distant site.
