

### **Dental Provider Contract Mailing Clarification**

UnitedHealthcare Community Plan of Louisiana would like to clarify a recent contract mailing to dental providers in the state.

**Our efforts to develop a robust dental network are not associated with the current Medicaid Dental Benefits Program, managed by MCNA.** UnitedHealthcare Community Plan recently submitted a proposal to contract as a Medicaid managed care organization and has been recommended for a contract award. When that contract is finalized, UnitedHealthcare Community Plan will offer a value-added benefit in addition to the current Medicaid Dental Benefit managed by MCNA.

This will be a limited dental benefit to adult UnitedHealthcare Community Plan members. Our goal is to provide quality dental care to eligible members who are without dental coverage.

We apologize for any misunderstanding or confusion the first letter may have caused you or your office.

If there are any questions regarding this initiative, please call 877-816-3596. Thank you.
