

Place of Service Code for Pediatric Day Health Care Facility Claims

Effective Oct. 1, 2016, UnitedHealthcare Community Plan will require Pediatric Day Health Care (PDHC) facilities to use the place of service code 99 – “Other Place of Service” – when submitting claims to meet a new state requirement and to help process claims more accurately.

PDHC claims with a place of service code other than 99 after Oct. 1, 2016, will be denied with an adjudication status code on the remittance advice instructing the facility to resubmit the claim with the place of service code 99.

If you have questions about this change, please call **866-675-1607**. Thank you.
