Trauma Informed Care & Motivational Interviewing in Primary Care Training

Participants will learn to:

- ◆ To recognize the signs and symptoms of trauma in patients.
- ◆ To identify core components of Trauma Informed Care.
- ◆ Understand brief Trauma Screening in Primary Care.
- ◆ Think through the Motivational Interviewing process.

"It was a quality training that provided valuable information and useful materials to help further develop knowledge and skills in the field." - recent attendee

About the Presenter:

Janet Brodsky, MSW, LICSW, is a therapist and educator with over 30 years of experience in trauma assessment and treatment. Janet has a passion for assisting under-served communities, including refugees and people affected by discrimination. She has received an award for Teaching Excellence.
