## **Important Claims Notices for Network Providers**

UnitedHealthcare Community Plan is updating our claim system to correct several codes issues for the following situations:

### **Provider Administered Drugs (PAD) Carve Out**

Effective Jan. 1, 2015, Wisconsin Medicaid redefined the PAD carve out policy to include J, Q and S codes. We are adding the PAD codes to our claims system.

### **510 Revenue Code Denials**

Revenue code 510 is being denied when billed with an appropriate procedure code.

### **Disposable Medical Supplies (DMS)**

Covered DMS codes are being denied in error.

If you receive a claim denial related to any of these situations, you do not need to resubmit your claim. We will adjust the claim for you. We expect to have these issues resolved by Feb. 27. If you do not receive payment on these denied claims by that date, please call Provider Services at 877-651-6677.

We apologize for the inconvenience for any denied claims you may have received in error and are working to correct these issues quickly. Thank you.
