

Re: UnitedHealthcare Community Plan of Wisconsin to reimburse for certain vision claims

Effective May 1, 2015, UnitedHealthcare Community Plan of Wisconsin will reimburse Nurse Practitioners, Physician Assistants, Physicians and Physician Groups for code 92015, determination of refractive state, when this service is provided to members as part of a *medical* visit. This includes ophthalmologists providing non-routine vision services as part of treatment for a medical condition. These claims can be submitted to UnitedHealthcare Community Plan at:

P.O. Box 5280
Kingston, NY 12402-5280

Eye care professionals should continue to follow current vision claims processes for *routine* vision services. Routine claims should be sent to Herslof Optical Company, our vision claims vendor, at:

P.O. Box 321
Milwaukee, WI 53201

When billing *non-routine* services, optometrists should review the maximum fee schedule on the ForwardHealth Portal, Wisconsin's online Medicaid Management Information System, prior to submitting the claim. You can access the ForwardHealth Portal at www.forwardhealth.wi.gov.

Please refer your patients who are UnitedHealthcare Community Plan members to Herslof providers for routine care. If you have questions or would like to access a list of Herslof providers, please call Provider Services at 877-651-6677 or Herslof Optical Company at 855-319-0425.

Thank you.
