

Caring for Members With High-Risk Pregnancies

We want to make it easy when you prescribe and administer Makena for high-risk maternity patients who are MississippiCAN members. To help the member follow your treatment plan and get the right dose at the right time here are some reminders:

- There's no prior authorization requirement for the medication.
- There are three ways to get Makena:
 - Order the medication from our network specialty pharmacies
 - You can buy the medication and file a claim for reimbursement
 - Send a prescription to a local retail pharmacy that has Makena in stock
- We cover the administration of Makena in the office or in the member's home.

Steps to take when Makena is administered at your office

When you purchase Makena on your own, submit a claim for reimbursement, or get it from one of the UnitedHealthcare Community Plan's network specialty pharmacies:

- BriovaRx Specialty Pharmacy: **866-815-5338**
- Option Care: **866-827-8203**

These pharmacies will require a copy of the prescription and the member's current phone number. They will then contact the member before shipping the medication to your office.

Steps to take when Makena is administered in the member's home

Members can receive Makena in their home from a UnitedHealthcare Community Plan network specialty pharmacy that also offers nursing services.

- Give the specialty pharmacy the prescription for the medication and an order for the nursing service, the member's address and phone number.
- Call Option Care at **866-827-8203**

While Makena doesn't require prior authorization, having a nurse administer Makena **does require** prior authorization. To submit a prior authorization request, please use one of the following options:

- Online: **UHCprovider.com/priorauth**
- Phone: **866-604-3267**
- Fax: **888-310-6858**; the fax form is available at **UHCCommunityPlan.com** > For Health Care Professionals > Mississippi > Provider Forms > Prior Authorization Form.

We're here to help

For more information about requesting prior authorization, please visit **UHCCommunityPlan.com** > For Health Care Professionals > Mississippi > Provider Information.

If you have questions not addressed in this notice, please contact us at **877-743-8734**. Thank you.
