

### **New Incentive Program for Patients with Diabetes – Delaware Only**

We are pleased to announce a new incentive program available to UnitedHealthcare Community Plan members.

As you may be aware, HEDIS rates for diabetic measures in Delaware are currently in the NCQA 25th percentile range. To encourage diabetic members to complete appropriate diabetic screenings and educational sessions, UnitedHealthcare Community Plan is offering an incentive to diabetic members ages 18 to 75. The goal of the program is to increase member compliance, improve outcomes and ultimately increase HEDIS rates for this patient population.

#### **Program details**

Members will receive prepaid Mastercard(s) for completing each of the following actions prior to December 31st of each year:

- Labs - Must include both HbA1c and LDL-C screening
- Eye Exam - Dilated Retinal Eye Exam
- Education - Delaware Health and Human Services (DHSS) Diabetic Education Course

We will be mailing detailed information about the program to eligible members, and hope your patients who qualify for the incentive will contact your office to schedule an appointment.

For more information, please call Provider Services at 800-600-9007.
