

UnitedHealthcare Connected® for MyCare Ohio (Medicare-Medicaid Plan) 2017 List of Covered Drugs (Formulary)

This is a list of drugs that members can get in UnitedHealthcare Connected for MyCare Ohio.

UnitedHealthcare Connected® for MyCare Ohio (Medicare-Medicaid Plan) is a health plan that contracts with both Medicare and Ohio Medicaid to provide benefits of both programs to enrollees.

The List of Covered Drugs and/or pharmacy and provider networks may change throughout the year. We will send you a notice before we make a change that affects you.

Benefits and/or copays may change on January 1 of each year.

You can always check UnitedHealthcare Connected for MyCare Ohio's up-to-date List of Covered Drugs online at www.UHCCommunityPlan.com.

Limitations, copays, and restrictions may apply. For more information, call UnitedHealthcare Connected for MyCare Ohio Member Services or read the UnitedHealthcare Connected for MyCare Ohio Member Handbook.

Copays for prescription drugs may vary based on the level of Extra Help you get. Please contact the plan for more details.

You can get this information for free in other languages. Call **1-877-542-9236**, TTY **711**, 7 a.m. - 8 p.m. local time, Monday - Friday; voice mail available 24 hours a day/7 days a week. The call is free.

Usted puede obtener esta información de forma gratuita en otros idiomas. Llame al **1-877-542-9236**, TTY **711**, de lunes a viernes, de 7 a.m. a 8 p.m., hora local; correo de voz disponible las 24 horas del día, los 7 días de la semana. La llamada es gratuita.

You can get this information for free in other formats, such as large print, braille or audio. Call **1-877-542-9236**, TTY **711**, 7 a.m. - 8 p.m. local time, Monday - Friday; voice mail available 24 hours a day/7 days a week. The call is free.

You can call Member Services and ask us to make a note in our system that you would like materials in Spanish, large print, braille or audio now and in the future.

Frequently Asked Questions (FAQ)

Find answers here to questions you have about this List of Covered Drugs. You can read all of the FAQ to learn more, or look for a question and answer.

1 What prescription drugs are on the List of Covered Drugs? (We call the List of Covered Drugs the “Drug List” for short.)

The drugs on the List of Covered Drugs that starts on page 9 are the drugs covered by UnitedHealthcare Connected for MyCare Ohio. These drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

→ UnitedHealthcare Connected for MyCare Ohio will cover all medically necessary drugs on the Drug List if:

- Your doctor or other prescriber says you need them to get better or stay healthy, **and**
- You fill the prescription at a UnitedHealthcare Connected for MyCare Ohio network pharmacy.

→ UnitedHealthcare Connected for MyCare Ohio may have additional steps to access certain drugs (see question #5 below).

You can also see an up-to-date list of drugs that we cover on our website at www.UHCCommunityPlan.com or call Member Services at **1-877-542-9236**, TTY **711**.

2 Does the Drug List ever change?

Yes. UnitedHealthcare Connected for MyCare Ohio may add or remove drugs on the Drug List during the year. Generally, the Drug List will only change if:

- A cheaper drug comes along that works as well as a drug on the Drug List now, **or**
- We learn that a drug is not safe.

We may also change our rules about drugs. For example, we could:

- Decide to require or not require prior approval for a drug. (*Prior approval* is permission from UnitedHealthcare Connected for MyCare Ohio before you can get a drug.)
- Add or change the amount of a drug you can get (called “quantity limits”).
- Add or change step therapy restrictions on a drug. (*Step therapy* means you must try one drug before we will cover another drug.)

(For more information on these drug rules, see pages 3, 4 and 9.)

If you have questions, please call UnitedHealthcare Connected for MyCare Ohio at **1-877-542-9236**, TTY **711**, 7 a.m. - 8 p.m. local time, Monday - Friday; voice mail available 24 hours a day/7 days a week. The call is free. **For more information**, visit www.UHCCommunityPlan.com.

We will tell you when a drug you are taking is removed from the Drug List. We will also tell you when we change our rules for covering a drug. Questions 3, 4, and 7 below have more information on what happens when the Drug List changes.

→ You can always check UnitedHealthcare Connected for MyCare Ohio's up-to-date Drug List online at www.UHCCommunityPlan.com. You can also call Member Services to check the current Drug List at **1-877-542-9236**, TTY **711**.

3 What happens when a cheaper drug comes along that works as well as a drug on the Drug List now?

If you are taking a drug that is removed because a cheaper drug that works just as well comes along, we will tell you. We will tell you at least 60 days before we remove it from the Drug List **or** when you ask for a refill. Then you can get a 60-day supply of the drug before the change to the Drug List is made. You will get a letter letting you know about the change. Contact your doctor or other prescriber to make sure this cheaper drug will work for you.

4 What happens when we find out a drug is not safe?

If the Food and Drug Administration (FDA) says a drug you are taking is not safe, we will take it off the Drug List right away. We will also send you a letter telling you that. Contact your doctor or other prescriber and ask about your other options.

5 Are there any restrictions or limits on drug coverage? Or are there any required actions to take in order to get certain drugs?

Yes, some drugs have coverage rules or have limits on the amount you can get. In some cases you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior approval (or prior authorization):** For some drugs, you or your doctor or other prescriber must get approval from UnitedHealthcare Connected for MyCare Ohio before you fill your prescription. If you don't get approval, UnitedHealthcare Connected for MyCare Ohio may not cover the drug.
 - **Quantity limits:** Sometimes UnitedHealthcare Connected for MyCare Ohio limits the amount of a drug you can get.
-

If you have questions, please call UnitedHealthcare Connected for MyCare Ohio at **1-877-542-9236**, TTY **711**, 7 a.m. - 8 p.m. local time, Monday - Friday; voice mail available 24 hours a day/7 days a week. The call is free. **For more information**, visit www.UHCCommunityPlan.com.

- **Step therapy:** Sometimes UnitedHealthcare Connected for MyCare Ohio requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables on pages 10 - 170. You can also get more information by visiting our website at www.UHCCCommunityPlan.com. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy.

You can ask for an "exception" from these limits. Please see question 11 for more information on exceptions.

- If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List, or if you cannot easily get the drug you need, we can help. We will cover a 31-day emergency supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new UnitedHealthcare Connected for MyCare Ohio member. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception. Please see question 11 for more information about exceptions.

6 How will you know if the drug you want has limitations or if there are required actions to take to get the drug?

The "List of Covered Drugs" on pages 10 - 170 has a column labeled "Necessary actions, restrictions, or limits on use."

7 What happens if we change our rules on how we cover some drugs? For example, if we add prior authorization (approval), quantity limits, and/or step therapy restrictions on a drug.

We will tell you if we add prior approval, quantity limits, and/or step therapy restrictions on a drug. We will tell you at least 60 days before the restriction is added or when you next ask for a refill. Then, you can get a 60-day supply of the drug before the change to the Drug List is made. This gives you time to talk to your doctor or other prescriber about what to do next.

If you have questions, please call UnitedHealthcare Connected for MyCare Ohio at **1-877-542-9236**, TTY **711**, 7 a.m. - 8 p.m. local time, Monday - Friday; voice mail available 24 hours a day/7 days a week. The call is free. **For more information**, visit www.UHCCCommunityPlan.com.

8 How can you find a drug on the Drug List?

There are two ways to find a drug:

- You can search alphabetically (if you know how to spell the drug), **or**
- You can search by medical condition.

To search **alphabetically**, go to the Alphabetical Listing section. You can find it after the “List of Covered Drugs” section. Find the name of your drug. The page number where you can find the drug will be next to it.

To search **by medical condition**, find the section labeled “List of drugs by medical condition” on pages 10 - 170. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular Agents. That is where you will find drugs that treat heart conditions.

9 What if the drug you want to take is not on the Drug List?

If you don't see your drug on the Drug List, call Member Services at **1-877-542-9236**, TTY **711** and ask about it. If you learn that UnitedHealthcare Connected for MyCare Ohio will not cover the drug, you can do one of these things:

- Ask Member Services for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. He or she can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. Please see question 11 for more information about exceptions.

10 What if you are a new UnitedHealthcare Connected for MyCare Ohio member and can't find your drug on the Drug List or have a problem getting your drug?

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of UnitedHealthcare Connected for MyCare Ohio. This will give you time to talk to your doctor or other prescriber. He or she can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception.

We will cover a 30-day supply of your drug if:

- You are taking a drug that is not on our Drug List, **or**
- Health plan rules do not let you get the amount ordered by your prescriber, **or**

If you have questions, please call UnitedHealthcare Connected for MyCare Ohio at **1-877-542-9236**, TTY **711**, 7 a.m. - 8 p.m. local time, Monday - Friday; voice mail available 24 hours a day/7 days a week. The call is free. **For more information**, visit **www.UHCommunityPlan.com**.

- The drug requires prior approval by UnitedHealthcare Connected for MyCare Ohio, **or**
- You are taking a drug that is part of a step therapy restriction.

If you live in a nursing home or other long-term care facility, you may refill your prescription for as long as 91 and may be up to 98 days. You may refill the drug multiple times during your first 90 days in the plan. This gives your prescriber time to change your drugs to ones on the Drug List or ask for an exception.

You may have an unplanned transition, like a hospital discharge or a change in your level of care, after the first 90 days of your plan membership. If this happens and your doctor prescribes a drug that's not on the drug list, or if it's difficult for you to get your drugs, you are required to use your plan's exception process. You may ask for a one-time emergency supply of up to 30 days to give you time to talk to your doctor about other treatment options or to try to get a formulary exception.

11 Can you ask for an exception to cover your drug?

Yes. You can ask UnitedHealthcare Connected for MyCare Ohio to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, UnitedHealthcare Connected for MyCare Ohio may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior approval requirements.

12 How long does it take to get an exception?

First, we must get a statement from your prescriber supporting your request for an exception. After we get the statement, we will give you a decision on your exception request within 72 hours.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of getting your prescriber's supporting statement.

If you have questions, please call UnitedHealthcare Connected for MyCare Ohio at **1-877-542-9236**, TTY **711**, 7 a.m. - 8 p.m. local time, Monday - Friday; voice mail available 24 hours a day/7 days a week. The call is free. **For more information**, visit **www.UHCCommunityPlan.com**.

13 How can you ask for an exception?

To ask for an exception, call Member Services. A Member Services representative will work with you and your provider to help you ask for an exception.

14 What are generic drugs?

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA).

UnitedHealthcare Connected for MyCare Ohio covers both brand name drugs and generic drugs.

15 What are OTC drugs?

OTC stands for "over-the-counter." UnitedHealthcare Connected for MyCare Ohio covers some OTC drugs when they are written as prescriptions by your provider.

You can read the UnitedHealthcare Connected for MyCare Ohio Drug List to see what OTC drugs are covered.

16 Does UnitedHealthcare Connected for MyCare Ohio cover OTC non-drug products?

UnitedHealthcare Connected for MyCare Ohio covers some OTC non-drug products when they are written as prescriptions by your provider.

You can read the UnitedHealthcare Connected for MyCare Ohio Drug List to see what OTC non-drug products are covered.

If you have questions, please call UnitedHealthcare Connected for MyCare Ohio at **1-877-542-9236**, TTY **711**, 7 a.m. - 8 p.m. local time, Monday - Friday; voice mail available 24 hours a day/7 days a week. The call is free. **For more information**, visit **www.UHCCommunityPlan.com**.

17 What is your copay?

You can read the UnitedHealthcare Connected for MyCare Ohio Drug List to learn about the copay for each drug.

UnitedHealthcare Connected for MyCare Ohio members living in nursing homes or other long-term care facilities will have no copays. Some members getting long-term care in the community will also have no copays.

Copays are listed by tiers. Tiers are groups of drugs with the same copay.

- Tier 1 drugs have the lowest copay. They are generic drugs. The copay is from \$1.20 to \$3.30, depending on your income.
- Tier 2 drugs have a higher copay. They are brand name drugs. The copay is from \$3.70 to \$8.25, depending on your income.
- Tier 3 drugs have a \$0 copay. They are OTCs/Non-Part D drugs.

If you have questions, please call UnitedHealthcare Connected for MyCare Ohio at **1-877-542-9236**, TTY **711**, 7 a.m. - 8 p.m. local time, Monday - Friday; voice mail available 24 hours a day/7 days a week. The call is free. **For more information**, visit **www.UHCCommunityPlan.com**.

List of Covered Drugs by Medical Condition

The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in the category, Cardiovascular Agents. That is where you will find drugs that treat heart conditions.

The List of Covered Drugs that begins on the next page gives you information about the drugs covered by UnitedHealthcare Connected for MyCare Ohio. If you have trouble finding your drug in the list, turn to the Index that begins on page 171.

The first column of the chart lists the name of the drug. Brand name drugs are capitalized (e.g., HUMALOG) and generic drugs are listed in lower-case italics (e.g., *simvastatin*).

The information in the “Necessary actions, restrictions, or limits on use” column tells you if UnitedHealthcare Connected for MyCare Ohio has any rules for covering your drug.

Utilization Management Restrictions

PA - Prior approval (or prior authorization)

For some drugs, you or your doctor or other prescriber must get approval from UnitedHealthcare Connected for MyCare Ohio before you fill your prescription. If you don't get approval, UnitedHealthcare Connected for MyCare Ohio may not cover the drug.

QL - Quantity limits

Sometimes UnitedHealthcare Connected for MyCare Ohio limits the amount of a drug you can get.

ST - Step therapy

Sometimes UnitedHealthcare Connected for MyCare Ohio requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor thinks the first drug doesn't work for you, then we will cover the second.

Other Special Requirements for Coverage

B/D - Medicare Part B or Part D

Depending on how this drug is used, it may be covered by either Medicare Part B (doctor and outpatient health care) or Medicare Part D (prescription drugs). Your doctor may need to provide the plan with more information about how this drug will be used to make sure it's correctly covered by Medicare.

HRM - High Risk Medication

This drug is known as a high risk medication (HRM) for Medicare members 65 and older. This drug may cause side effects if taken on a regular basis. We suggest you talk with your doctor to see if an alternative drug is available to treat your condition.

LA - Limited Access

Drugs are considered “limited access” if the FDA says the drug can be given out only by certain facilities or doctors. These drugs may require extra handling, provider coordination or patient education that can't be done at a network pharmacy.

MED – Morphine Equivalent Dose

Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional edit is called a cumulative Morphine Equivalent Dose (MED). The MED is calculated based on the number of opioid drugs prescribed for you over a period of time. This cumulative limit is required for all plans and is designed to monitor safe dosing levels of opioids for those individuals who may be taking more than one opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.

Note: The asterisk (*) next to a drug means the drug is not a “Part D drug.” The amount you pay when you fill a prescription for this drug does not count towards your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are getting Extra Help to pay for your prescriptions, you will not get any Extra Help to pay for these drugs. These drugs also have different rules for appeals. An *appeal* is a formal way of asking us to review a coverage decision and to change it if you think we made a mistake. For example, we might decide that a drug that you want is not covered or is no longer covered by Medicare or Medicaid. If you or your doctor disagrees with our decision, you can appeal. To ask for instructions on how to appeal, call Member Services at **1-877-542-9236**, TTY **711**. You can also read the Member Handbook to learn how to appeal a decision.

Name of Drug	What the drug will cost you (tier level)	Necessary actions, restrictions, or limits on use
Analgesics		
Analgesics		
<i>acephen (suppository)</i> *	\$0 (Tier 3)	
<i>acetaminophen (120mg suppository, 650mg suppository, 160mg/5ml liquid, 160mg/5ml oral solution, 325mg tablet, 500mg tablet, 80mg tablet chewable)</i> *	\$0 (Tier 3)	
<i>acetaminophen extra strength (tablet)</i> *	\$0 (Tier 3)	
<i>butalbital/acetaminophen (50mg-325mg tablet)</i>	\$1.20-\$3.30 (Tier 1)	QL

You can find information on what the symbols and abbreviations in this table mean by going to pages 9 and 10.

CAPITALIZED = brand name drug *lower-case italics* = generic drug

* For OTCs/Non-Part D Drugs. These drugs require a prescription in order to be covered by the plan.

Name of Drug	What the drug will cost you (tier level)	Necessary actions, restrictions, or limits on use
<i>butalbital/acetaminophen/caffeine (50mg-325mg-40mg capsule, 50mg-325mg-40mg tablet)</i>	\$1.20-\$3.30 (Tier 1)	QL
<i>butalbital/aspirin/caffeine (capsule)</i>	\$1.20-\$3.30 (Tier 1)	QL
