Preferred Drug List

INTRODUCTION

UnitedHealthcare Community Plan is pleased to provide this Preferred Drug List (*PDL*) to be used when prescribing for patients covered by the pharmacy benefit plan offered by UnitedHealthcare Community Plan. The drugs listed in this *PDL* are intended to provide sufficient options to treat patients who require treatment with a drug from that pharmacologic or therapeutic class. The drugs listed in the UnitedHealthcare Community Plan *PDL* have been reviewed and approved by the UnitedHealthcare Community Plan Pharmacy and Therapeutics Committee. The drugs have been selected to provide the most clinically appropriate and cost-effective medications for patients who have their drug benefit administered through UnitedHealthcare Community Plan. It is also recognized there may be occasions where an unlisted drug is desired for proper medical management of a specific patient. In those infrequent instances, the unlisted medication may be requested through the Medical prior authorization process.

The drugs represented have been reviewed by the UnitedHealthcare Community Plan Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion. The *PDL* is reflective of current medical practice as of the date of review.

This edition incorporates drugs added to the PDL since the last edition as well as numerous revisions to the prescribing information based on changes in pharmacotherapy. Comments and suggestions from practicing physicians have also been incorporated to ensure that the UnitedHealthcare Community Plan PDL is reflective of current medical practice.

NOTICE

The information contained in this PDL and its appendices is provided by UnitedHealthcare Community Plan, solely for the convenience of medical providers. UnitedHealthcare Community Plan does not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature.

This PDL is not intended to be a substitute for the knowledge, expertise, skill and judgment of the medical provider in their choice of prescription drugs.

UnitedHealthcare Community Plan assumes no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

National guidelines can be found on the Web sites listed in the Web site section or go to the National Guideline Clearinghouse site at <http://www.guideline.gov>.

The PDL and quarterly updates are also available on our web site at www.uhccommunityplan.com.

PREFACE

The UnitedHealthcare Community Plan PDL is organized by sections. Each section includes therapeutic groups identified by either a drug class or disease state.

Products are listed by generic name. Brand names are included as a reference to assist in product recognition. Unless exceptions are noted, generally all applicable dosage forms and strengths of the drug cited are included in the PDL. Generics should be considered the first line of prescribing.

The UnitedHealthcare Community Plan PDL covers selected over-the-counter (OTC) products. Many are noted in the drug lists; a complete list is included on page 44. You are encouraged to prescribe OTC medications when clinically appropriate.

If a brand name drug is medically necessary, please submit a prior authorization request.

The UnitedHealthcare Community Plan MAC list sets a ceiling price for the reimbursement of certain multisource prescription drugs. This price will typically cover the acquisition of most generics but not branded versions of the same drug. The products selected for inclusion on the MAC list are commonly prescribed and dispensed and have usually gone through the FDA's review and approval process. An important consideration for generic substitution is the knowledge that all approvals of generic drugs by the FDA since 1984, and many generic approvals prior to 1984, have a showing of bioequivalence between the generic versions and the reference brand product. To gain FDA approval:

1. The generic drug must contain the same active ingredient(s), be the same strength and the same dosage form as the brand name product.
2. The FDA has given the generic an "A" rating compared to the branded product indicating bioequivalence, and has determined the generic is therapeutically equivalent to the reference brand. The ratings of generic drugs are available by referring to the FDA reference, Approved Drug Products with Therapeutic Equivalence Evaluations (Orange Book).

When the above two criteria are met, a generic can be substituted with the full expectation that the substituted product will produce the same clinical effect and safety profile as the prescribed product. Drug products that have a narrow therapeutic index (NTI) can also be guided by these principles. It is not necessary for the health care provider to approach any one therapeutic class of drug products (e.g., NTI drugs) differently from any other class, when there has been a determination of therapeutic equivalence by the FDA for the drug products under consideration. Also, additional clinical tests or examinations by the physician are not needed when a therapeutically equivalent generic drug product is substituted for the brand name product.

There are now many brand name products that are repackaged or distributed under a generic label. The generic label version should always be considered therapeutically equivalent and substitutable for the source branded product.

DRUG EFFICACY STUDY IMPLEMENTATION (DESI) DRUGS

Drugs first marketed between 1938 and 1962 were approved as safe but required no showing of effectiveness for FDA approval. Beginning in 1962, all new drugs were required to be both safe and effective before they could be marketed. This legislation also applied retroactively to all drugs approved as safe from 1938-1962. The DESI program was established by the FDA to review the effectiveness of these pre-1962 drugs for their labeled

indications, and a determination of "fully effective" was made for most of these products and they remain in the marketplace. A few DESI products remain classified as "less than fully effective" while awaiting final administrative disposition. Also, classified as DESI are many products listed as identical, similar, or related to actual DESI products. UnitedHealthcare Community Plan's PDL does not cover DESI "less than fully effective" drug products.

PLAN EXCLUSIONS

The following drug categories are excluded from coverage under the outpatient pharmacy benefit and are not part of the UnitedHealthcare Community Plan PDL.

- DESI drugs
- Anti-obesity agents
- Experimental / research drugs
- Cosmetic drugs
- Nutritional / diet supplements
- Blood and blood plasma products
- Agents used to promote fertility
- Agents used for erectile dysfunction
- Agents used for cosmetic hair growth
- Drugs from manufacturers that do not participate in the FFS Medicaid Drug Rebate Program
- Diagnostic products
- Medical supplies and DME except as listed: insulin syringes, insulin needles, lancets, alcohol swabs, spacers, preferred diabetes test strips, peak flow meters (Astech, Assess, Peak Air brands, max two per year), vaporizer (limit of 1 per 3 years), humidifier (limit of 1 per 3 years)

DAYS SUPPLY DISPENSING LIMITATIONS

UnitedHealthcare Community Plan members may receive up to a one month supply of a specific medication per prescription order or prescription refill. A medication may be reordered or refilled when ninety percent (90%) of the medication has been utilized for a controlled substance and eighty-five percent (85%) of the medication has been utilized for a non-controlled substance. If a claim is submitted before 90% of the medication has been used for a controlled substance or submitted before 85% of the medication has been used for a non-controlled substance, based on the original day supply submitted on the claim, the claim will reject with a "refill too soon" message. Please call the UnitedHealthcare Community Plan Pharmacy Department at 800-310-6826 with questions or for help with dosage change authorization.

MANDATORY GENERIC SUBSTITUTION The UnitedHealthcare Community Plan *PDL* requires mandatory generic substitution on the vast majority of products when a generic equivalent is available; however, brand name drugs may be covered in certain situations by requesting a prior authorization. The UnitedHealthcare Community Plan *PDL* prior authorization (PA) list does not include branded items where a generic equivalent is covered.

PRIOR AUTHORIZATION OF NON-PDL MEDICATIONS

The drugs in the UnitedHealthcare Community Plan PDL have been selected to provide the most clinically appropriate and cost-effective medications for patients who have their drug benefit administered through UnitedHealthcare Community Plan. It is also recognized that there may be occasions where an unlisted drug is desired for the proper medical management of a specific patient. In those infrequent instances, the prior authorization process reviews requests for unlisted medications the physician may consider medically necessary for patient management.

Requests for these exceptions should be made in writing by the physician and faxed or mailed to:

**UnitedHealthcare Community Plan
Pharmacy Services Department
Fax 866-940-7328
Phone 800-310-6826**

A prior authorization request form is available in the UnitedHealthcare Community Plan provider manual and should be used for all prior authorization requests if possible. Appropriate documentation must be provided to support the medical necessity of the non-PDL request. The UnitedHealthcare Community Plan Pharmacy Department will respond to all requests in accordance with state requirements.

Physicians are requested to adhere to this PDL when prescribing for patients covered by their pharmacy benefit plan offered by UnitedHealthcare Community Plan. If a pharmacist receives a prescription for a non-PDL drug, the pharmacist should contact the prescribing physician and request that the prescription be changed to a medication included in this PDL. If a PDL alternative is not appropriate the physician should then be instructed to contact the Plan for a prior authorization. Please contact the UnitedHealthcare Community Plan Pharmacy Department at 800-310-6826 with questions concerning the prior authorization process.

NON-PDL DRUGS 7-DAY AND 15-DAY OVERRIDES

To ensure the use of PDL drugs, all non-PDL drugs should be discussed with the prescribing physician. **If you cannot speak to the physician immediately, and there is an immediate need for the medication, the claim processing system will accept an override to permit a one-time dispensing of a 7-day supply of the newly prescribed non-PDL drug.** The pharmacy should submit a claim for a 7 day supply, with a PA Type of 8 and Prior Authorization number of "00000000120".

Please note that non-preferred drugs are available for a 7-day supply, however availability is subject to the benefit design. For assistance, pharmacies may call 800-310-6826.

Pharmacies may dispense a one-time, 15-day supply to members requiring an immediate supply of an ongoing medication. **The pharmacist must contact the plan to obtain a manual 15-day override.** Before the next dispensing, **the pharmacy must** contact the physician to discuss a PDL drug or if a prior authorization request is warranted. If the prescribing physician feels a drug is medically necessary, the physician may fax a request for prior authorization to UnitedHealthcare Community Plan at 866-940-7328, Attn: Pharmacy Department.

QUANTITY LIMITATIONS (QL)

Prescriptions for monthly quantities greater than the indicated limit require a prior authorization request.

Quantity limits based on Efficient Medication Dosing

The Efficient Medication Dosing Program is designed to consolidate medication dosage to the most efficient daily quantity to increase adherence to therapy and also promote the efficient use of health care dollars.

The limits for the program are established based on FDA approval for dosing and the availability of the total daily dose in the least amount of tablets or capsules daily. Quantity Limits in the prescription claims processing system will limit the dispensing to consolidate dosing. The pharmacy claims processing system will prompt the pharmacist to request a new prescription order from the physician.

Controlled Substances

You may fill any FOUR medications from the following classes in a 30-day period:

- benzodiazepines
- sedative hypnotic agents
- barbiturates
- select muscle relaxants

Additional fills will require prior authorization.

Medications in these classes may also be subject to individual quantity limits.

Additions to the QL program drug list will be made from time to time and providers notified accordingly. As always, we recognize that a number of patient-specific variables must be taken into consideration when drug therapy is prescribed and therefore overrides will be available through the medical exception (prior authorization) process. Please contact the UnitedHealthcare Community Plan Pharmacy Department at 800-310-6826 with questions.

Specialty Pharmaceutical Management Program

UnitedHealthcare Community Plan is continuously looking for ways to provide high quality cost effective care for Plan members. The Specialty Pharmaceutical Management Program helps UnitedHealthcare Community Plan to achieve these goals.

Injectable medications that are part of this program require plan authorization and are not available through the retail pharmacy network.

To obtain authorization, the provider must submit the appropriate Prior Authorization form to the UnitedHealthcare Community Plan Pharmacy Department via fax at 866-940-7328.

The UnitedHealthcare Community Plan Pharmacy Department will review and respond to all requests in accordance with state requirements, and if authorized for payment, UnitedHealthcare Community Plan will coordinate the delivery of the product to the member or provider.

Drugs that are part of this program and are on the PDL are identified in this booklet by the designation "SP".

Prior Authorization request forms can be requested by calling the UnitedHealthcare Community Plan Pharmacy Department 800-310-6826.

MEDICATIONS REQUIRING DIAGNOSIS

UnitedHealthcare Community Plan requires that the diagnosis for prescriptions in certain classes match the FDA-approved use or a use supported by current published evidence. Drugs in scope will list "Diagnosis required" in the Requirements and Limits section on the PDL.

The diagnosis will be verified at the point-of-sale by the pharmacy claims processing system. If a matching diagnosis is not found in the medical claim file or on the pharmacy drug claim, the prescription will be rejected at the pharmacy. The pharmacist may then contact the prescriber to verify the diagnosis and submit it on the claim.

If the diagnosis provided still does not match the approved use, prior authorization may be requested through the standard process by faxing a request to 866-940-7328.

STEP THERAPY (ST)

The following PDL drugs are routinely covered only after a sufficient trial of an indicated first-line agent has been adequately tried and failed. These medications may also be requested through the Prior authorization process.

While lower cost PDL alternatives may be appropriate in many instances, other non- PDL alternatives are available with prior authorization (PA).

STEP Drug	First-Line Agent(s)
Amerge	Trial at a minimum dose of 50mg of sumatriptan tablets.
Aricept 23mg	90 day trial of Aricept 10mg daily
Breo Ellipta	1) 30 day trial of one inhaled corticosteroid (e.g. Arnuity Ellipta, Asmanex) OR 2) 30 day trial of a long-acting beta2- agonist (e.g. Arcapta, Striverdi) OR 30 day trial of an orally inhaled anticholinergic agent (e.g. Incruse Ellipta, Atrovent, Combivent, Anoro Ellipta).

calcipotriene cream & oint 0.005%	Trial of two medium to high potency topical corticosteroid treatments.
calcitriol 3mcg/gm	Trial of two topical corticosteroids
DPP4 Inhibitors (Nesina, Kazano, Oseni)	At least a 90 day trial of 1500mg/day of metformin.
Elidel	Minimum age of 2. Trial of one topical corticosteroid.
Eucria	Trial of a topical corticosteroid AND one of the following: Elidel or tacrolimus ointment.
fenofibrate	Fill of a statin or 90 days of gemfibrozil within the previous 180 days.
GLP-1 Agonists (Adlyxin, Tanzeum, Trulicity)	At least a 90 day trial of 1500mg/day of metformin.
GLP-1/Insulin Combinations (Soliqua)	Trial of one drug from the following classes: GLP-1 or Basal Insulin
Optivar	14 day trial of ketotifen within previous 90 days required first.
Ranexa	Trial of one drug from the following classes: beta blockers, calcium channel blockers, long acting nitrates
Renvela	8 week trial of calcium acetate.
SGLT-2 Inhibitors (Steglatro, Segluromet)	At least a 90 day trial of 1500mg/day of metformin
tacrolimus 0.03%	Minimum age of 2. Trial of one topical corticosteroid.
tacrolimus 0.1%	Minimum age of 16. Trial of one topical corticosteroid.
tolterodine	30 day trial of oxybutynin immediate release. Step Therapy only applies to members less than 65 years of age.
tretinoin cream (tretinoin cream)	Trial of Differin OTC Gel 0.1%.

**0.025%, 0.05%, 0.1%,
and Avita cream 0.025%)**

trospium 30 day trial of oxybutynin immediate release. Step Therapy only applies to members less than 65 years of age.

Uloric 8 week trial of up to 600mg of allopurinol required first.

Vancocin One fill of metronidazole tabs or cap

Xopenex Respules 30 day trial of Albuterol .083% or .5% respules.

PDL SUGGESTIONS

Providers who wish to propose PDL suggestions should forward the information to the UnitedHealthcare Community Plan Director of Pharmacy Services by either mail or fax.

Attn: Director of Pharmacy Services
UnitedHealthcare Community Plan
2 Allegheny Center
Suite 600
Pittsburgh, PA 15212
Fax: 866-940-7328

Providers should furnish adequate documentation, such as clinical studies from the medical literature, in order for the request to be considered for PDL addition. This literature should include information documenting clinical necessity as well as therapeutic advantages over current PDL products. Suggestions received by UnitedHealthcare Community Plan will be reviewed by the Pharmacy and Therapeutics Committee at the subsequent P&T Committee meeting.

EDITOR

Your comments and suggestions regarding the UnitedHealthcare Community Plan PDL are encouraged. Your input is vital to this PDL's continued success. All responses will be reviewed and considered. Please send your comments to:

“My Medications” worksheet

Take this worksheet with you each time you visit a doctor. Each of your doctors should be aware of every drug you take and you should have a list as well.

Name of Medicine and Strength	Drug Tier	I Take This Medicine For	Directions	Doctor
Example: Lisinopril, 20 mg	Tier 1	High blood pressure	One tablet daily	Dr. Johnson
