

Specialty Pharmacy Drug List

UnitedHealthcare is always working to provide the best care for our members. The Specialty Pharmacy Program is one way we do that. The medications listed below and on the following pages are a part of the Specialty Pharmacy Program. Many of these medications are available at your retail pharmacy, and all are available through UnitedHealthcare's network of specialty pharmacies. Prior authorization may be required. Please check the Preferred Drug List (PDL) for more information on these medications. If you have questions about the program or your benefit, call the Member Services number on the back of your insurance card.
