

## Clinical Practice Guidelines

UnitedHealthcare Community Plan has compiled a list of evidence-based clinical guidelines, and the websites where they can be found, for our quality and health management programs. We respect the expertise of the physicians and other health care professionals in our network and appreciate your help as we work together to offer our members better quality, better health outcomes and better cost.

If you have questions, please contact your Physician Advocate. Or, call the number on the back of the member's ID card. Thank you.
