

Gender Confirmation

UnitedHealthcare Community Plan for Kids now covers transition care for persons diagnosed with gender dysphoria. Gender dysphoria refers to the major distress one experiences over the gender they are born with. This distress causes afflicted individuals not to identify with the gender they were assigned at birth and may result in a strong desire to live life as the other gender.

UnitedHealthcare Community Plan for Kids is committed to providing needed services to help our members through the transition phase. More importantly, we carefully take into consideration, the gender goals of the patient, which may include:

- Counseling.
- Hormone therapy.
- Gender reassignment surgery.

Benefit Limits: Some services may require prior authorization.

If you have questions about this change, please call our Special Needs Unit 877-844-8844.
