B. Providers

B1. Key terms

A health care team may consist of the member, the member’s family/caregiver and qualified professionals including the integrated care delivery system care manager, the waiver service coordinator, if appropriate, the primary care provider, specialists, and other providers, as applicable, designed to effectively meet the member’s needs. Your health care team will provide care management services to you after your enrollment in the plan. Your health care team will work with you to promote your ability to live independently, and the team will work to coordinate your full set of Medicare and Medicaid benefits including medical, behavioral, long term care and social needs.

This section explains key terms you’ll see in our Provider and Pharmacy Directory.

- **Providers** are health care professionals and support providers such as doctors, nurses, pharmacists, therapists, and other people who provide care and services. **Services** include medical care, long-term services and supports, supplies, prescription drugs, equipment and other services.
- The term **providers** also includes facilities such as hospitals, clinics, and other places that provide medical services, medical equipment, and long-term services and supports.
- Providers that are a part of our plan’s network are called **network providers**.
- **Network providers** are the providers that have contracted with us to provide services to members in our plan. The providers in our network generally bill us for care they give you. When you see a network provider, you usually pay only your share of the cost for covered services.
- A **Primary Care Provider (PCP)** is a health care professional, primary care clinic, a federally qualified health center or a rural health care center who gives you routine health care. Your PCP will keep your medical records and get to know your health needs over time.
- **Specialists** are doctors who provide health care services for a specific disease or part of the body. There are many kinds of specialists. Here are a few examples:
  - **Oncologists** care for patients with cancer.
  - **Cardiologists** care for patients with heart conditions.
  - **Orthopedists** care for patients with certain bone, joint, or muscle conditions.
- All female members are allowed to self-refer to certified nurse midwives (CNMs), obstetricians and gynecologists on the UnitedHealthcare Community Plan provider panel. In addition, female members are also allowed to self-refer to women’s health specialists on the UnitedHealthcare Community Plan panel for routine and preventative health care services if their PCP is not a women’s health specialist. For a list of women’s health specialists on UnitedHealthcare Community Plan’s panel please call Member Services at 1-800-895-2017 (TTY: 711), 8 a.m. - 8 p.m., local time, Monday - Friday (voicemail available 24 hours a day/7 days a week).

This means that they make sure tests and labs are done once and the results are shared with the appropriate providers. Your PCP will always get your permission before sharing your medical information with other providers.

**B4. How to identify providers in UnitedHealthcare Connected for MyCare Ohio's Network**

You must get all of your covered services from providers within our network. These providers have an agreement to work with us and provide you services. We call these providers “network providers”.

The exceptions to this rule are when you need long-term nursing home care, urgent or emergency care or dialysis and cannot get to a provider in the plan, such as when you are away from home. Also, for a specific period of time after your enrollment in UnitedHealthcare Connected for MyCare Ohio you can see your out-of-network physicians and other service providers, including nursing homes and assisted living providers, home health nurses, aides and LTSS or “waiver services” providers. Members must qualify for these services as they are not available to all plan members. You can also go outside the plan if UnitedHealthcare Connected for MyCare Ohio gives you permission first. Call Member Services to ask for the use of providers outside of our network, so we can make arrangements for you.

**If you have questions**, please call UnitedHealthcare Connected for MyCare Ohio at 1-877-542-9236, TTY 711, 8 a.m. - 8 p.m., local time, Monday - Friday (voicemail available 24 hours a day/7 days a week). You may change providers within the network at any time during the year. If you have been going to one network provider, you do not have to keep going to that same provider. If you want to change your primary care provider (PCP), call Member Services. Members can change their PCP monthly. Change requests made within the first month of membership will be effective the date of the request. If you request a PCP change after your first month of membership, the change will be effective on the first day of the next month. You will receive a new membership ID card that shows your new PCP name and phone number.

UnitedHealthcare Connected for MyCare Ohio works with all the providers in our network to accommodate the needs of people with disabilities.
