**2021 List of Covered Drugs (Formulary)**

**Introduction**

This document is called the *List of Covered Drugs* (also known as the Drug List). It tells you which prescription drugs and over-the-counter (OTC) drugs are covered by UnitedHealthcare Senior Care Options. The Drug List also tells you if there are any special rules or restrictions on any drugs covered by UnitedHealthcare Senior Care Options. Key terms and their definitions appear in the last chapter of the *Evidence of Coverage*.

Our contact information, along with the date we last updated the Drug List, appears on the front and back cover pages.

## B. Frequently Asked Questions (FAQ)

Find answers to questions you have about this *List of Covered Drugs*. You can read all of the FAQ to learn more or look for a question and answer.

---

### B1. What prescription drugs are on the *List of Covered Drugs*? (We call the *List of Covered Drugs* the “Drug List” for short.)

The drugs on the Drug List that starts on page 12 are the drugs covered by UnitedHealthcare Senior Care Options. These drugs are available at pharmacies within our network. A pharmacy is in our network if we have an agreement with them to work with us and provide you services. We refer to these pharmacies as “network pharmacies.”

- UnitedHealthcare Senior Care Options will cover all medically necessary drugs on the Drug List if:
  - Your doctor or other prescriber says you need them to get better or stay healthy,
  - UnitedHealthcare Senior Care Options plan agrees that the drug is medically necessary for you, **and**
  - You fill the prescription at a UnitedHealthcare Senior Care Options network pharmacy.
- In some cases, you have to do something before you can get a drug. See question B4 for more information.

You can also see an up-to-date list of drugs we cover on our website at [www.myuhc.com/CommunityPlan](http://www.myuhc.com/CommunityPlan) or call Customer Service at **1-888-867-5511**, TTY **711**, 8 a.m. - 8 p.m. local time, 7 days a week.

---

### B2. Does the Drug List ever change?

Yes, and UnitedHealthcare Senior Care Options must follow Medicare and MassHealth rules when making changes. We may add or remove drugs on the Drug List during the year.

We may also change our rules about drugs. For example we could:

- Decide to require or not require prior authorization for a drug. (Prior authorization is permission from UnitedHealthcare Senior Care Options before you can get a drug.)
- Add or change the amount of a drug you can get (called quantity limits).
- Add or change step therapy restrictions on a drug. (Step therapy means you must try one drug before we will cover another drug.)

For more information on these drug rules, see question B4.

If you are taking a drug that was covered at the **beginning** of the year, we will generally not remove or change coverage of that drug **during the rest of the year** unless:

**This section is continued on the next page.**

---

**If you have questions**, please call UnitedHealthcare Senior Care Options Customer Service at **1-888-867-5511**, TTY **711**, 8 a.m. - 8 p.m. local time, 7 days a week. The call is free. **For more information**, visit [www.myuhc.com/CommunityPlan](http://www.myuhc.com/CommunityPlan).

- A new, cheaper drug comes on the market that works as well as a drug on the Drug List now, **or**
- We learn that a drug is not safe, **or**
- A drug is removed from the market.

Questions B3 and B6 have more information on what happens when the Drug List changes.

- You can always check UnitedHealthcare Senior Care Options' current Drug List online at **[www.myuhc.com/CommunityPlan](http://www.myuhc.com/CommunityPlan)**.
- You can also call Customer Service at **1-888-867-5511**, TTY **711**, 8 a.m. - 8 p.m. local time, 7 days a week to check the current Drug List.

---

### **B3. What happens when there is a change to the Drug List?**

Some changes to the Drug List will happen **immediately**. For example:

- **A new generic drug becomes available.** Sometimes, a new generic drug comes on the market that works as well as a brand name drug on the Drug List now. When that happens, we may remove the brand name drug and add the new generic drug, but your cost for the new drug will remain \$0. When we add the new generic drug, we may also decide to keep the brand name drug on the list but change its coverage rules or limits.
  - We may not tell you before we make this change, but we will send you information about the specific change we made once it happens.
  - You or your provider can ask for an exception from these changes. We will send you a notice with the steps you can take to ask for an exception. See questions B10 - B12 for more information on exceptions.
- **A drug is taken off the market.** If the Food and Drug Administration (FDA) says a drug you are taking is not safe or the drug's manufacturer takes a drug off the market, we will take it off the Drug List. If you are taking the drug, we will let you know. Contact your doctor or other prescriber and ask about your other options.

**We may make other changes that affect the drugs you take.** We will tell you in advance about these other changes to the Drug List. These changes might happen if:

- The FDA provides new guidance or there are new clinical guidelines about a drug.
- We add a generic drug that is not new to the market **and**
- Replace a brand name drug currently on the Drug List **or**
- Change the coverage rules or limits for the brand name drug.

When these changes happen, we will:

- Tell you at least 30 days before we make the change to the Drug List **or**
- Let you know and give you a 30-day supply of the drug after you ask for a refill.

**This section is continued on the next page.**

This will give you time to talk to your doctor or other prescriber. They can help you decide:

- If there is a similar drug on the Drug List you can take instead **or**
- Whether to ask for an exception from these changes. To learn more about exceptions, see questions B10 - B12 for more information.

---

#### **B4. Are there any restrictions or limits on drug coverage or any required actions to take to get certain drugs?**

Yes. Some drugs have coverage rules or have limits on the amount you can get. In some cases, you or your doctor or other prescriber must do something before you can get the drug. For example:

- **Prior authorization:** For some drugs, you, your doctor or other prescriber must get authorization from UnitedHealthcare Senior Care Options before you fill your prescription. Prior authorization is different from a referral. UnitedHealthcare Senior Care Options may not cover the drug if you don't get authorization.
- **Quantity limits:** Sometimes UnitedHealthcare Senior Care Options limits the amount of a drug you can get.
- **Step therapy:** Sometimes UnitedHealthcare Senior Care Options requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor or other prescriber thinks the first drug doesn't work for you, then we will cover the second.

You can find out if your drug has any additional requirements or limits by looking in the tables on pages 14 - 93. You can also get more information by visiting our website at [www.myuhc.com/CommunityPlan](http://www.myuhc.com/CommunityPlan). We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy.

You can ask for an exception to these limits. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead or whether to ask for an exception. See questions B10 - B12 for more information about exceptions.

---

#### **B5. How will I know if the drug I want has limits or if there are any actions required to get the drug?**

The Drug List on pages 14 - 93 has a column labeled "Necessary actions, restrictions, or limits on use."

**This section is continued on the next page.**

---

**If you have questions**, please call UnitedHealthcare Senior Care Options Customer Service at **1-888-867-5511**, TTY **711**, 8 a.m. - 8 p.m. local time, 7 days a week. The call is free. **For more information**, visit [www.myuhc.com/CommunityPlan](http://www.myuhc.com/CommunityPlan).

---

**B6. What happens if UnitedHealthcare Senior Care Options changes their rules about how they cover some drugs (for example, prior authorization, quantity limits, and/or step therapy restrictions)?**

In some cases, we will tell you in advance if we add or change prior authorization, quantity limits, and/or step therapy restrictions on a drug. See question B3 for more information about this advance notice and situations where we may not be able to tell you in advance when our rules about drugs on the Drug List change.

---

**B7. How can I find a drug on the Drug List?**

There are two ways to find a drug:

- You can search alphabetically, **or**
- You can search by medical condition.

To search **alphabetically**, go to the Index of Covered Drugs section that begins on page 185. The Index is an alphabetical list of all of the drugs included in the Drug List. Both brand name drugs and generic drugs are listed. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information.

To search by **medical condition**, find the section labeled “List of Drugs by Medical Condition” on page 12. The drugs in this section are grouped into categories depending on the type of medical conditions they are used to treat. For example, if you have a heart condition, you should look in that category. That is where you will find drugs that treat heart conditions.

---

**B8. What if the drug I want to take is not on the Drug List?**

If you don't see your drug on the Drug List, call Customer Service at **1-888-867-5511**, TTY **711** and ask about it. If you learn that UnitedHealthcare Senior Care Options will not cover the drug, you can do one of these things:

- Ask Customer Service for a list of drugs like the one you want to take. Then show the list to your doctor or other prescriber. They can prescribe a drug on the Drug List that is like the one you want to take. **Or**
- You can ask the health plan to make an exception to cover your drug. See questions B10 - B12 for more information about exceptions.

---

**B9. What if I am a new UnitedHealthcare Senior Care Options member and can't find my drug on the Drug List or have a problem getting my drug?**

We can help. We may cover a temporary 30-day supply of your drug during the first 90 days you are a member of UnitedHealthcare Senior Care Options. This will give you time to talk to your doctor or other prescriber. They can help you decide if there is a similar drug on the Drug List you can take instead, or whether to ask for an exception.

**This section is continued on the next page.**

If your prescription is written for fewer days, we will allow multiple refills to provide up to a maximum of 30 days of medication.

We will cover a 30-day supply of your drug if:

- You are taking a drug that is not on our Drug List, **or**
- Health plan rules do not let you get the amount ordered by your prescriber, **or**
- The drug requires prior authorization by UnitedHealthcare Senior Care Options, **or**
- You are taking a drug that is part of a step therapy restriction.

If you are in a nursing home or other long-term care facility and need a drug that is not on the Drug List or if you cannot easily get the drug you need, we can help. If you have been in the plan for more than 90 days, live in a long-term care facility, and need a supply right away:

- We will cover one 31-day supply of the drug you need (unless you have a prescription for fewer days), whether or not you are a new UnitedHealthcare Senior Care Options member.
- This is in addition to the temporary supply during the first 90 days you are a member of UnitedHealthcare Senior Care Options.

If you are going through a change in your level of care, such as being transferred from a hospital to a long-term care facility, any time during the year, we may cover a temporary 31-day supply of the drug you need. This will give you time to talk to your doctor or other prescriber about other treatment options or to try to get an exception. See questions B10 - B12 for more information about exceptions.

We will not pay for more of your drug after you get a temporary supply unless you receive authorization from the plan.

---

## **B10. Can I ask for an exception to cover my drug?**

Yes. You can ask UnitedHealthcare Senior Care Options to make an exception to cover a drug that is not on the Drug List.

You can also ask us to change the rules on your drug.

- For example, UnitedHealthcare Senior Care Options may limit the amount of a drug we will cover. If your drug has a limit, you can ask us to change the limit and cover more.
- Other examples: You can ask us to drop step therapy restrictions or prior authorization requirements.

**This section is continued on the next page.**

---

**If you have questions**, please call UnitedHealthcare Senior Care Options Customer Service at **1-888-867-5511**, TTY **711**, 8 a.m. - 8 p.m. local time, 7 days a week. The call is free. **For more information**, visit [www.myuhc.com/CommunityPlan](http://www.myuhc.com/CommunityPlan).

---

**B11. How can I ask for an exception?**

To ask for an exception, call Customer Service. A Customer Service representative will work with you and your provider to help you ask for an exception. You can also read Chapter 8 of the *Evidence of Coverage* to learn more about exceptions.

---

**B12. How long does it take to get an exception?**

First, we must get a statement from your prescriber supporting your request for an exception. After we get the statement, we will give you a decision on your exception request within 72 hours.

If you or your prescriber think your health may be harmed if you have to wait 72 hours for a decision, you can ask for an expedited exception. This is a faster decision. If your prescriber supports your request, we will give you a decision within 24 hours of getting your prescriber's supporting statement.

---

**B13. What are generic drugs?**

Generic drugs are made up of the same active ingredients as brand name drugs. They usually cost less than the brand name drug and usually don't have well-known names. Generic drugs are approved by the Food and Drug Administration (FDA).

UnitedHealthcare Senior Care Options covers both brand name drugs and generic drugs.

---

**B14. What are (OTC) drugs?**

OTC stands for "over-the-counter." UnitedHealthcare Senior Care Options covers some OTC drugs when they are written as prescriptions by your provider. These OTC drugs are listed in this Drug List starting on page 123.

---

**B15. Does UnitedHealthcare Senior Care Options cover non-drug OTC products?**

Yes. UnitedHealthcare Senior Care Options covers **some** non-drug OTC products when they are written as prescriptions by your provider. These non-drug OTC products are listed in the Drug List.

---

**B16. Can I get a long-term supply of drugs?**

Yes. UnitedHealthcare Senior Care Options offers two ways to get a long-term supply of "maintenance" drugs on our plan's Drug List. (Maintenance drugs are drugs that you take on a regular basis, for a chronic or long-term medical condition.)

- **Retail pharmacy.** Some retail pharmacies in our network allow you to get a long-term supply of maintenance drugs. Your *Pharmacy Directory* tells you which pharmacies in our network can give you a long-term supply of maintenance drugs.
- **Mail-order.** For certain kinds of drugs, you can use the plan's network mail-order services. Our plan's mail-order service allows you to get up to a 90-day supply. To get order forms

**This section is continued on the next page.**

and information about filling your prescriptions by mail, please reference your *Pharmacy Directory* to find the mail service pharmacies in our network.

For more information about getting a long-term supply of drugs, call Customer Service at **1-888-867-5511**, TTY **711**.

---

### **B17. What is my copay?**

UnitedHealthcare Senior Care Options members have no copays for prescription and over-the-counter (OTC) drugs and non-drug products as long as the member follows the plan's rules. See questions B14 and B15 for more information about OTC drugs and non-drug products.

Tiers are groups of drugs on our Drug List. Your plan has 1 tier named "Covered Drugs." All covered drugs are in this tier.

- Tier 1 Generic drugs have \$0 copay.
- Tier 1 Brand name drugs have \$0 copay.

OTCs have \$0 copay.

If you have questions, call Customer Service at **1-888-867-5511**, TTY **711**.

**If you have questions**, please call UnitedHealthcare Senior Care Options Customer Service at **1-888-867-5511**, TTY **711**, 8 a.m. - 8 p.m. local time, 7 days a week. The call is free. **For more information**, visit [www.myuhc.com/CommunityPlan](http://www.myuhc.com/CommunityPlan).

## **C. Overview of the *List of Covered Drugs***

The *List of Covered Drugs* gives you information about the drugs covered by UnitedHealthcare Senior Care Options. If you have trouble finding your drug in the list, turn to the Index of Covered Drugs that begins on page 185. The index alphabetically lists all drugs covered by UnitedHealthcare Senior Care Options.

---

### **C1. List of Drugs by Medical Condition**

The drugs in this section are grouped into categories by type. For example, if you are taking a medicine for migraines, you should look in the “Antimigraine Agents” category. That is where you will find drugs that treat migraines.

The first column of the table lists the name of the drug. Generic drugs are listed in lower-case italics (for example, *simvastatin*) and brand name drugs are capitalized (for example, HUMALOG).

The information in the “Necessary actions, restrictions, or limits on use” column tells you if UnitedHealthcare Senior Care Options has any rules for covering your drug.

#### **Coverage Rules and Limits**

---

##### **PA – Prior authorization**

For some drugs, you, your doctor or other prescriber must get authorization from UnitedHealthcare Senior Care Options before you fill your prescription. Prior authorization is different from a referral. UnitedHealthcare Senior Care Options may not cover the drug if you don’t get authorization.

##### **QL – Quantity limits**

Sometimes UnitedHealthcare Senior Care Options limits the amount of a drug you can get.

##### **ST – Step therapy**

Sometimes UnitedHealthcare Senior Care Options requires you to do step therapy. This means you will have to try drugs in a certain order for your medical condition. You might have to try one drug before we will cover another drug. If your doctor or other prescriber thinks the first drug doesn’t work for you, then we will cover the second.

**This section is continued on the next page.**

## **Other Special Coverage Rules**

---

### **B/D – Medicare Part B or Part D**

Depending on how this drug is used, it may be covered by either Medicare Part B (doctor and outpatient health care) or Medicare Part D (prescription drugs). Your doctor may need to provide the plan with more information about how this drug will be used to make sure it's correctly covered by Medicare.

### **LA – Limited access**

Drugs are considered “limited access” if the FDA says the drug can be given out only by certain facilities or doctors. These drugs may require extra handling, provider coordination or patient education that can't be done at a network pharmacy.

### **MME – Morphine milligram equivalent**

Additional quantity limits may apply across all drugs in the opioid class used for the treatment of pain. This additional limit is called a cumulative morphine milligram equivalent (MME), and is designed to monitor safe dosing levels of opioids for individuals who may be taking more than 1 opioid drug for pain management. If your doctor prescribes more than this amount or thinks the limit is not right for your situation, you or your doctor can ask the plan to cover the additional quantity.

### **7D – 7-Day limit**

An opioid drug used for the treatment of acute pain may be limited to a 7-day supply for members with no recent history of opioid use. This limit is intended to minimize long-term opioid use. For members who are new to the plan, and have a recent history of using opioids, the limit may be overridden by having the pharmacy contact the plan.

### **DL – Dispensing limit**

Dispensing limits apply to this drug. This drug is limited to a 1-month supply per prescription.

### C3. Over-the-counter (OTC) Drug List

UnitedHealthcare Senior Care Options covers some prescription OTC drugs that aren't normally covered under our Medicare Part D benefit.

You need a prescription from your doctor to have drugs on this list covered. If your prescription is for a brand name drug, you will get the generic version of the drug if it's available. Your doctor should write "no substitution" on the prescription to get the brand name drug.

Some of these drugs may need prior authorization. Please check with your doctor and the plan. If the drug requires a prior authorization, you or your doctor will need to get approval from the plan before the drug may be covered.

The list below shows the prescription OTC drugs covered by the plan.
