UnitedHealthcare Community Plan

Diagnostic and Treatment Services for Autism Spectrum Disorders

Children's Rehabilitative Services (CRS) and Optum – our Behavioral Health Services contracting partner, have developed a network of Arizona providers able to diagnose and treat Autism Spectrum Disorders (ASD) for CRS enrolled members. For your convenience, please see the list of providers below, along with the services they are able to provide.

Some of these contracted providers also provide Applied Behavioral Analysis (ABA) Services.

For behavioral health members enrolled as a CRS Fully-Integrated or Partially-Integrated: Providers showing "Yes" under "Provides ABA Services" may be contacted directly to schedule an appointment for services, using the phone number listed for the agency.

Other CRS, Acute and Developmentally Disabled (DD) enrolled members will need to contact the Regional Behavioral Health Authority (RBHA) in their area for a list of the RBHA's contracted list of providers.
