Welcome to UnitedHealthcare Community Plan of Kentucky

This handbook will be your guide to the full range of Medicaid health care services available to you.

If you have questions about the information in your welcome packet, this handbook or your health plan, call Member Services at **1-866-293-1796** or visit our website at UHCCommunityPlan.com. We can also help you make an appointment with your doctor and tell you more about the services you can get with your new health plan.

How Managed Care works The plan, our providers and you

- Many people get their health benefits through managed care, which works like a central home for your health. Managed care helps coordinate and manage all your health care needs.
- UnitedHealthcare Community Plan of Kentucky has a contract with the Kentucky Department for Medicaid Services to meet the health care needs of people with Kentucky Medicaid. In turn, UnitedHealthcare Community Plan of Kentucky partners with a group of health care providers to help us meet your needs. These providers (doctors, therapists, specialists, hospitals, home care providers and other health care facilities) make up our **provider network**. You will find a list in our Provider Directory. You can visit our website to find the Provider Directory online UHCCommunityPlan.com. You can also call Member Services to get a copy of the Provider Directory.
- When you join UnitedHealthcare Community Plan of Kentucky, our providers are there to support you. Most of the time, that person will be your Primary Care Provider (PCP). If you need to have a test, see a specialist or go into the hospital, your PCP can help arrange it.
- Your PCP is available to you day and night. If you need to speak to your PCP after hours or weekends, leave a message and how you can be reached. Your PCP will get back to you as soon as possible. Even though your PCP is your main source for health care, in some cases, you can go to other doctors for some services without checking with your PCP.

Part I: First things you should know

How to choose your Primary Care Provider

Your Primary Care Provider (PCP) is a doctor, nurse practitioner, physician assistant or another type of provider who will care for your health, manage your needs and help you get referrals for special services if you need them. When you enroll, you will be able to choose your own PCP. To choose your PCP, call Member Services. If you do not select a PCP, we will choose one for you. You can find your PCP's name and contact information on your ID card. (See "How to change your PCP" to learn how you can change your PCP.)

When choosing a PCP, you may want to find a PCP who:

- You have seen before
- Understands your health problems
- Is taking new patients
- Can speak in your language
- Has an office that is easy to get to

Each family member enrolled in UnitedHealthcare Community Plan of Kentucky can have a different PCP, or you can choose one PCP to take care of the whole family. A pediatrician treats children. Family practice doctors treat the whole family. Internal medicine doctors treat adults. Call Member Services at **1-866-293-1796** to get help with choosing a PCP that is right for you and your family.

You can find the list of all the doctors, clinics, hospitals, labs and others who partner with UnitedHealthcare Community Plan of Kentucky in our Provider Directory. You can visit our website to look at the Provider Directory online. You can also call Member Services to get a copy of the Provider Directory.

- Women can choose an OB/GYN to serve as their PCP. Women do not need a PCP referral to see a plan OB/GYN doctor or another provider who offers women's health care services.
- Women can get routine check-ups, follow-up care if needed and regular care during pregnancy.
- If you have a difficult health condition or a special health care need, you may be able to choose a specialist to act as your PCP.

If your provider leaves our provider network, we will tell you within 15 days from when we know about this if they were your PCP and within 30 days for any other provider. If the provider who leaves is your PCP, we will contact you to help you choose another PCP.

Questions? Visit [UHCCommunityPlan.com](https://www.uhc.com/communityplan),
or call Member Services at **1-866-293-1796**, TTY 711.

Part I: First things you should know

Second opinions

As a UnitedHealthcare Community Plan member, you can ask for a second opinion about a treatment or procedure and UnitedHealthcare Community Plan will cover that cost. You will work with your PCP to be referred to another in-network care provider. The care provider giving the second opinion must not be affiliated with the attending care provider. If an in-network provider is not available, UnitedHealthcare Community Plan will arrange for a consultation with a non-participating provider.

Once the second opinion has been given, you will discuss information from both evaluations with your PCP. If follow-up care is recommended, you must meet with your PCP before receiving treatment.

How to change your PCP

You can find your Primary Care Provider's (PCP's) name and contact information on your ID card. You can change your assigned PCP within 90 days from the date you receive your ID card. Just call Member Services. After that, you can change your PCP up to one time each year without giving a reason for the change.

If you want to change your PCP more than once a year, you can change at any time if you have a good reason (good cause). For example, you may have good cause if you:

- Disagree with your treatment plan
- Your PCP moves to a different location that is not convenient for you
- You have trouble communicating with your PCP because of a language barrier or another communication issue
- Your PCP is not able to meet your special needs

Call Member Services to learn more about how you can change your PCP **1-866-293-1796**.

How to get regular health care

“Regular health care” means exams, regular check-ups, shots or other treatments to keep you well, give you advice when you need it, and refer you to the hospital or specialists when needed. It means you and your Primary Care Provider (PCP) work together to keep you well or to see that you get the care you need.

Day or night, your PCP is only a phone call away. Be sure to call your PCP whenever you have a medical question or concern. If you call after hours or on weekends, leave a message and where or how you can be reached. Your PCP will call you back as quickly as possible. Remember, your PCP knows you and knows how your health plan works.

Your PCP will take care of most of your health care needs, but you must have an appointment to see your PCP. If you cannot keep an appointment, call to let your PCP know.

Making your first regular health care appointment

As soon as you choose or are assigned a PCP, call to make an appointment. There are several things you can do to help your PCP get to know you and your health care needs. Your PCP will need to know as much about your medical history as possible. Make a list of your medical background, any problems you have now and the questions you want to ask your PCP. Bring your medications and supplements with you that you are taking. In most cases, your first visit should be within three months of you joining the health plan.

If you need care before your first appointment

Call your PCP’s office to explain your concern. Your PCP will give you an earlier appointment. You should still keep the first appointment to talk about your medical history and ask questions.

It is important that you can visit a doctor within a reasonable amount of time, depending on what the appointment is for. When you call for an appointment, use the Appointment Guide on the following page to know how long you may have to wait to be seen.

Part I: First things you should know

Appointment Guide	
If You Call for This Type of Service:	Your Appointment Should Take Place:
Adult preventive care (services like routine health check-ups or immunizations)	Within 30 days
Urgent care services (care for problems like sprains, flu symptoms, or minor cuts and wounds)	Within 48 hours
Emergency or urgent care requested after normal business office hours	Immediately (available 24 hours a day, 7 days a week, 365 days a year)
Mental Health	
Routine services	Within 30 days
Urgent care services	Within 48 hours
Emergency services (services to treat a life-threatening condition)	Immediately (available 24 hours a day, 7 days a week, 365 days a year)
Mobile crisis management services	Within 30 minutes
Substance Use Disorders	
Routine services	Within 30 days
Urgent care services	Within 48 hours
Emergency services (services to treat a life-threatening condition)	Immediately (available 24 hours a day, 7 days a week, 365 days a year)

If you are having trouble getting the care you need within the time limits described above, call Member Services at **1-866-293-1796**.

How to get specialty care – Referrals

- If you need care that your Primary Care Provider (PCP) cannot give, your PCP will refer you to a specialist who can. A specialist is a doctor who is trained and practices in a specific area of medicine (like a cardiologist or a surgeon). Talk with your PCP to be sure you know how referrals work.
- If you think a specialist does not meet your needs, talk with your PCP. Your PCP can help you if you need to see a different specialist.
- There are some treatments and services that your PCP must ask us to approve before we will pay for you to get them. Your PCP will be able to tell you what they are or you can contact Member Services if you have questions.
- If you have trouble getting a referral you think you need, contact Member Services.
- If we do not have a specialist in our provider network who can give you the care you need, we will refer you to a specialist outside of our plan. This is called an out-of-network referral. Your PCP or another network provider must ask for approval before we will pay for you to go to an out-of-network provider.
- Sometimes, we may not approve an out-of-network referral because we have a provider in our network who can treat you. If you do not agree with UnitedHealthcare Community Plan of Kentucky decision, you can **appeal** our decision. See page 37 to find out how.
- Sometimes, we may not approve an out-of-network referral for a specific treatment because you asked for care that is not very different from what you can get from our provider. If you do not agree with our decision, you can **appeal** our decision. See page 37 to find out how.

Part I: First things you should know

Out-of-network providers

If we do not have a specialist in our provider network who can give you the care you need, we will get you the care you need from a specialist outside our plan, or an **out-of-network provider**. For help and more information about getting services from an out-of-network provider, talk to your Primary Care Provider (PCP) or call **1-866-293-1796**.

Services without a referral

You do not need a referral to get these services:

- Primary care vision
- Primary care dental
- Family planning
- Maternity care
- Women's health care
- Children's screening and local health department services
- Sexually transmitted disease screening, evaluation and treatment
- Testing for HIV, HIV-related conditions and other communicable diseases
- Chiropractic services
- Behavioral health services

Emergencies

You are always covered for emergencies. An emergency medical condition is a situation in which your life could be threatened, or you could be hurt permanently if you don't get care right away. Some examples of an emergency are:

- A heart attack or severe chest pain
- Bleeding that won't stop or a bad burn
- Broken bones
- Trouble breathing, seizures or loss of consciousness
- When you feel you might hurt yourself or others
- If you are pregnant and have signs like pain, bleeding, fever or vomiting
- Drug overdose

If you believe you have an emergency, call 911 or go to the nearest emergency room.

- You do not need approval from your plan or your PCP before getting emergency care, and you are not required to use our hospitals or doctors.
- If you're not sure, call your PCP or the 24-hour/7 day a week NurseLine toll free at **1-800-985-3856**.
- Tell the person you speak with what is happening. They can:
 - Tell you what to do at home
 - Tell you to come to the PCP's office
 - Tell you to go to the nearest urgent care or emergency room
- If you are out of the area when you have an emergency:
 - Go to the nearest emergency room

Remember: Use the emergency department only if you have an emergency.

Some examples of **non-emergencies** are colds, upset stomach or minor cuts and bruises.

Part I: First things you should know

Urgent Care

You may have an injury or an illness that is not an emergency but still needs prompt care and attention. This could be:

- A child with an ear ache who wakes up in the middle of the night and won't stop crying
- The flu or if you need stitches
- A sprained ankle or a bad splinter you cannot remove

You can walk into an urgent care clinic to get care the same day or make an appointment for the next day. Whether you are at home or away, call your Primary Care Provider (PCP) any time, day or night. If you cannot reach your PCP, call Member Services. Tell the person who answers what is happening. They will tell you what you can do.

Care outside of Kentucky

In some cases, we may pay for health care services you get from a provider located along the Kentucky border or in another state. Your PCP and we can give you more information about which providers and services are covered outside of Kentucky, and how you can get them if needed.

- If you need medically necessary emergency care while traveling anywhere within the United States, we will pay for your care
- We will not pay for care received outside of the United States

If you have any questions about getting care outside of Kentucky or the United States, talk with your PCP or call Member Services **1-866-293-1796**.

Part II: Your benefits

The rest of this handbook is for your information when you need it. It lists covered and non-covered services. If you are having problems, the handbook tells you what to do. The handbook has other information you may find useful. Keep it handy for when you need it.

Benefits

Kentucky Medicaid Managed Care provides benefits or health care services covered by your health plan. Your health benefits can help you stay as healthy as possible. We will provide or arrange for most services that you will need. For example, we can help if you:

- Need a physical or immunizations
- Have a medical condition (things like diabetes, cancer, heart problems)
- Are pregnant
- Are sick or injured
- Experience a substance use disorder or have behavioral health needs
- Need assistance with tasks like eating, bathing, dressing or other activities of daily living
- Need help getting to the doctor's office
- Need medications

The section below describes the specific services covered by Medicaid. Ask your Primary Care Provider (PCP) or call Member Services if you have any questions about your benefits.

Your Health Assessment

A Health Assessment is a short and easy survey that asks you simple questions about your lifestyle and your health. When you fill it out, we can get to know you better. And it helps us match you with the many benefits and services available to you. We may call you to get additional information about your health assessment.

Transportation services

- **Emergency:** If you need emergency transportation (an ambulance), call 911.
- **Non-emergency:** Non-emergency medical transportation is available if you can't get a free ride to a covered service.

How to get non-emergency transportation

Kentucky Medicaid will pay to take some members to get medical services covered by Kentucky Medicaid. If you need a ride, you must talk to the transportation broker in your county to schedule a trip.

Each county in Kentucky has a transportation broker. You can only use the transportation broker for a ride if you can't use your own car or don't have one. If you can't use your car, you have to get a note for the transportation broker that explains why you can't use your car. If you need a ride from a transportation broker and you or someone in your household has a car, you can:

- Get a doctor's note that says you can't drive
- Get a note from your mechanic if your car doesn't run
- Get a note from the boss or school official if your car is needed for someone else's work or school
- Get a copy of the registration if your car is junked
- Kentucky Medicaid doesn't cover rides to pick up prescriptions

For a list of transportation brokers and their contact information, please visit the website <https://transportation.ky.gov/TransportationDelivery/Pages/Human-Services-Transportation.aspx> or call Kentucky Medicaid at **1-800-635-2570**. For more information about transportation services, call the Kentucky Transportation Cabinet at **1-888-941-7433**.

The hours of operation are 8:00 a.m. to 4:30 p.m. ET, Monday through Friday; and 8:00 a.m. to 1:00 p.m. ET, Saturday. If you need a ride, you have to call 72 hours before the time that you need the ride. If you have to cancel an appointment, call your broker as soon as possible to cancel the ride.

You should always try to go to a medical facility that is close to you. If you need medical care from someone outside your service area, you have to get a note from your PCP. The note has to say why it is important for you to travel outside your area. (Your area is your county and the counties next to it).

or call Member Services at **1-866-293-1796**, TTY **711**.

You can also see a family planning provider for human immunodeficiency virus (HIV) and sexually transmitted infection (STI) testing and treatment and counseling related to your test results. Service authorization requests for children under age 21

What happens after we get your service authorization request

UnitedHealthcare Community Plan of Kentucky has a review team to be sure you get the services we promise. Qualified health care workers are on the review team. Their job is to be sure that the treatment or service you asked for or need is covered by UnitedHealthcare Community Plan of Kentucky and is medically necessary.

Any decision to deny a service authorization request or to approve it for an amount that is less than requested is called an **adverse action (or action)**. These decisions will be made by a health care worker. You can request the specific medical standards, called **clinical review criteria**, used to make the decision for actions related to medical necessity.

After we get your request, we will review it under either a **standard** or an **expedited** (faster) process. You or your doctor can ask for an expedited review if it is believed that a delay will cause serious harm to your health. If your request for an expedited review is denied, we will tell you and your case will be handled under the standard review process. In all cases, we will review your request as fast as your medical condition requires us to do so but no later than described in the next section of this handbook.

Part III: Plan procedures

We will tell you and your provider in writing if your request is approved or denied. We will also tell you the reason for the decision. We will explain what options you will have for an appeal or a Fair Hearing if you don't agree with our decision.

Preauthorization and timeframes

We will review your request for a preauthorization within the following timeframes:

- **Standard review:** We will decide about your request within two (2) Business Days of receiving the request. The timeframe for a standard authorization request may be extended up to fourteen (14) Days if you or your doctor requests it.
- **Expedited (fast track) review:** We will decide about your request and you will hear from us within twenty-four (24) hours.
- In most cases, if you receive a service and a new request is made to keep receiving a service, we must tell you before we change the service if we decide to reduce, stop or restrict the service. **If we approve a service and you have started to receive that service, we will not reduce, stop or restrict the service during the time it has been approved unless we determine the approval was based on information that was known to be false or wrong.**
- If we deny payment for a service, we will send a notice to you and your provider the day the payment is denied. These notices are not bills. **You will not have to pay for any care you received that was covered by your plan or by Medicaid, even if UnitedHealthcare Community Plan of Kentucky later denies payment to the provider.**

Information from Member Services

You can call Member Services at **1-866-293-1796** to get help **anytime you have a question**. You may call us to choose or change your Primary Care Provider (PCP), to ask about benefits and services, to get help with referrals, to replace a lost ID card, to report the birth of a new baby, or ask about any changes or other issues that might affect you or your family's benefits. We can answer any questions you may have about the information in this handbook.

How you can help with health plan policies

We value your ideas. You can help us develop policies that best serve our members. Maybe you would like to work with one of the member committees in our health plan or with Kentucky, like:

- UnitedHealthcare Community Plan of Kentucky Quality Member Advisory Committee (QMAC)
- Technical Advisory Committees (TAC) — TACs act as advisors to the Advisory Council for Medical Assistance. Each TAC represents a specific provider type or are individuals representing Medicaid beneficiaries

Call Member Services at **1-866-293-1796** to learn more about how you can help.

Questions? Visit [UHCCommunityPlan.com](https://www.uhc.com/community-plan),

Appeals

If you are not satisfied with our decision about your care, you can file an appeal:

- If you are not satisfied with an action we took or what we decide about your service authorization request (see page 34 about Service authorizations and actions), **you can file an appeal or a request for us to review the decision.** You have 60 days after you get a written notice from us to file an appeal.
- You can do this yourself or your authorized representative can do it for you. You can call Member Services at **1-866-293-1796** or visit our website at UHCCommunityPlan.com if you need help filing an appeal.
- The appeal can be made by phone or in writing. **If you call us, you must also file your appeal in writing.** We can help you complete the appeal form.
- If your appeal review needs to be expedited (reviewed more quickly than the standard timeframe) because you have an immediate need for health services, you do not need to follow up in writing after you call us.
- We will not treat you any differently or act badly toward you because you file an appeal.
- To file an appeal, write to:
UnitedHealthcare Community Plan of Kentucky
Appeals and Grievances
P.O. Box 31364
Salt Lake City, UT 84131-0364
- To file an appeal by phone, call Member Services at **1-866-293-1796**.
- Before and during the appeal, you or your representative can see your case file, including medical records and any other documents and records being used to make a decision on your case.
- You can ask questions and give any information (including new medical documents from your providers) that you think will help us to approve your request. You may do that in-person, in writing or by phone.
- **If you need help with understanding the Appeals process,** you can contact the **Medicaid Managed Care Ombudsman Program.** See page 48 or call **1-800-372-2973** for more information about the Ombudsman Program.

Part III: Plan procedures

Timeframes for appeals

- **Standard appeals:** If we have all the information we need, we will tell you our decision in writing within 30 days from your appeal.
- **Expedited (fast track) appeals:** If we have all the information we need, we will call you and send you a written notice of our decision within 3 days from your appeal.

If we need more information to make either a standard or an expedited decision about your appeal, we will:

- Write you and tell you what information is needed. For expedited appeals, we will call you right away and send a written notice later
- Explain why the delay is in your best interest
- Make a decision no later than 14 days from the timeframes referenced above

If you need more time to gather your documents and information, just ask. You, your provider or someone you trust may ask us to delay your case until you are ready. We want to make the decision that supports your best health. This can be done by calling Member Services at **1-866-293-1796** or writing to:

UnitedHealthcare Community Plan of Kentucky
Appeals and Grievances
P.O. Box 31364
Salt Lake City, UT 84131-0364.

Your care while you wait for a decision

When UnitedHealthcare Community Plan of Kentucky decision reduces or stops a service you are already receiving, you can ask to continue the services your provider had already ordered while we decide on your appeal. You can also ask an authorized representative to make that request for you.

You must ask us to continue your services within 10 days from the date of the notice that says your care will change or by the time the action takes effect. You will need to contact Member Services at **1-866-293-1796**.

If you ask UnitedHealthcare Community Plan of Kentucky to continue services you already receive during your appeal, we will pay for those services if your appeal is decided in your favor. **Your appeal might not change the decision we made about your services. When your appeal doesn't change our decision, UnitedHealthcare Community Plan of Kentucky may require you to pay for the services you received while waiting for a decision.**

If you are unhappy with the result of your appeal, you can ask for a Fair Hearing (see next section in this handbook).

Questions? Visit [UHCCommunityPlan.com](https://www.uhc.com/community-plan),
or call Member Services at **1-866-293-1796**, TTY 711.

State Fair Hearings

If you don't agree with a decision UnitedHealthcare Community Plan of Kentucky made that reduced, stopped or limited your services after you receive our decision about your appeal, you can ask for a **State Fair Hearing** from Kentucky Medicaid. A State Fair Hearing is your opportunity to give more information, and to ask questions about your decision before an administrative law judge. The judge in your State Fair Hearing is not a part of UnitedHealthcare Community Plan of Kentucky in any way.

To qualify for a State Fair Hearing, your letter should:

- Be mailed or filed within 120 days from the day you hear from us about our decision about your appeal
- Explain why you need a State Fair Hearing
- Give the day of the service and the kind of service that was denied. Include a copy of the last appeal decision letter you got from us

A state employee called a hearings officer is in charge of your State Fair Hearing. The hearings officer will send you a letter with the date and time for your hearing. The letter will also explain the hearing process. If you do not want to speak or are unable to speak for yourself, you can choose someone to speak for you at the hearing. You can request the State Fair Hearing or you can ask someone to do it for you. You can choose anyone you want, including a friend, your doctor, a legal guardian, a relative or an attorney to speak for you. If you pick a person to do the State Fair Hearing for you, that person is your Authorized Representative. If you didn't already do so during the appeal, you must fill out a consent form to let someone else speak for you.

If you filled out a consent form for the appeal, they'll be able to speak for you. If you didn't, you can still call us to get one for the State Fair Hearing. To request a State Fair Hearing, you should send your letter to the address below.

Your care when you change health plans or doctors (transition of care)

If you join UnitedHealthcare Community Plan of Kentucky from another health plan, we will contact you within 5 business days from your expected enrollment date with us. We will ask you for the name of your previous plan, so we can add your health information, like your medical records and prescheduled appointments, into our records.

- If you choose to leave UnitedHealthcare Community Plan of Kentucky, we will share your health information with your new plan.
- You can finish receiving any services that have already been authorized by your previous health plan. After that, we will help you find a provider in our network to get any additional services if you need them.

Part III: Plan procedures

- In almost all cases, your doctors will be UnitedHealthcare Community Plan of Kentucky providers. There are some instances when you can still see another provider that you had before you joined UnitedHealthcare Community Plan of Kentucky. You can continue to see your doctor if:
 - At the time you join UnitedHealthcare Community Plan of Kentucky you have an ongoing course of treatment or an ongoing special health condition. In that case, you can ask to keep your provider for up to 90 days.
 - You are more than 3 months pregnant when you join UnitedHealthcare Community Plan of Kentucky and you are getting prenatal care. In that case, you can keep your provider until after your delivery and for up to 60 days of post-partum care.
 - You are pregnant when you join UnitedHealthcare Community Plan of Kentucky and you receive services from a behavioral health treatment provider. In that case, you can keep your provider until after your delivery.
- If your provider leaves our provider network, we will tell you within 15 days from when we know about this. If the provider who leaves is your PCP, we will contact you to help you choose another PCP.

Continued care if your PCP leaves the network

Sometimes PCPs leave the network, such as move out of state or retire. If this happens to your PCP, you will receive a letter from us letting you know. Sometimes UnitedHealthcare Community Plan will pay for you to get covered services from doctors for a short time after they leave the network. You may be able to get continued care and treatment when your doctor leaves the network if you are being actively treated for a serious medical problem. For example, you may qualify if you are getting chemotherapy for cancer or are at least six months pregnant when your doctor leaves the network. To ask for this, please call your doctor.

Ask them to request an authorization for continued care and treatment from UnitedHealthcare.

If you have any questions, call Member Services at **1-866-293-1796**.

Advance Directives

There may come a time when you become unable to manage your own health care and a family member or other person close to you is making decisions on your behalf. By planning in advance, you can arrange now for your wishes to be carried out. An advance directive is a set of directions you give about the medical and mental health care you want if you ever lose the ability to make decisions for yourself.

Making an advance directive is your choice. If you become unable to make your own decisions, and you have no advance directive, your doctor or behavioral health provider will consult with someone close to you about your care. Discussing your wishes for medical and behavioral health treatment with your family and friends now is strongly encouraged, as this will help to make sure that you get the level of treatment you want if you can no longer tell your doctor or other physical or behavioral health providers what you want.

Kentucky has three ways for you to make a formal advance directive. These include living wills, health care power of attorney, and advance instructions for mental health treatment.

Living will

In Kentucky, a **living will** is a legal document that tells others that you want to die a natural death if you:

- Become incurably sick with an irreversible condition that will result in your death within a short period of time
- Are unconscious and your doctor determines that it is highly unlikely that you will regain consciousness
- Have advanced dementia or a similar condition which results in a substantial cognitive loss and it is highly unlikely the condition will be reversed

In a living will, you can direct your doctor not to use certain life-prolonging treatments such as a breathing machine (called a “respirator” or “ventilator”), or to stop giving you food and water through a feeding tube.

A living will goes into effect only when your doctor and one other doctor determine that you meet one of the conditions specified in the living will. Discussing your wishes and friends, family and your doctor now is strongly encouraged so that they can help make sure that you get the level of care you want at the end of your life.

Part III: Plan procedures

Health care power of attorney

A health care power of attorney is a legal document in which you can name one or more people as your health care agents to make medical and behavioral health decisions for you as you become unable to decide for yourself. You can always say what medical or behavioral health treatments you would want and not want. You should choose an adult you trust to be your health care agent. Discuss your wishes with the people you want as your agents before you put them in writing.

Again, it is always helpful to discuss your wishes with your family, friends and your doctor. A health care power of attorney will go into effect when a doctor states in writing that you are not able to make or to communicate your health care choices. If, due to moral or religious beliefs, you do not want a doctor to make this determination, the law provides a process for a non-physician to do it.

Fraud, waste and abuse

If you suspect that someone is committing Medicaid fraud, report it. Examples of Medicaid fraud include:

- An individual does not report all income or other health insurance when applying for Medicaid
- An individual who does not get Medicaid uses a Medicaid member's card with or without the member's permission
- A doctor or a clinic bills for services that were not provided or were not medically necessary

You can report suspected fraud and abuse in any of the following ways:

- Call the UnitedHealthcare fraud, waste, abuse line: **1-866-293-1796**
- Call the Medicaid fraud, waste and program abuse tip line: **502-696-5405**
