

THE KEY TO A GOOD LIFE IS A GREAT PLAN HealthTALK

Don't lose your health coverage!

Renew your health care benefits on time. For information on renewing, call Maryland Health Connection at **1-855-642-8572** (TTY **1-855-642-8573**). Or, visit **MarylandHealthConnection.gov**.

Know your BMI

Are you at a healthy weight?

Two out of three adults are overweight or obese. So are one out of three children. Being overweight puts you at risk for many problems. These include heart disease, high blood pressure and Type 2 diabetes.

Are you too heavy? Know your body mass index (BMI). This figure tells you if your weight is too much for your height.

- 18.5 to 24.9 is a healthy weight.
- 25 to 29.9 is overweight.
- 30 or higher is obese.

Know your number. Your doctor can tell you what your BMI is. Or you can enter your weight and height to find out your BMI at cdc.gov/healthyweight/assessing/bmi.

What to expect

Remember your postpartum checkup.

It's easy for a new mom to neglect her own health. But it's very important to see your doctor or midwife six weeks after you give birth. If you had a Cesarean section, you should also go two weeks after you give birth. At your postpartum checkup, your provider will:

- check to make sure you are healing well from childbirth
- screen you for postpartum depression
- do a pelvic exam
- let you know if you are ready to start having sex again
- talk about birth control options
- answer questions about breastfeeding and examine your breasts

Pregnant? Join Healthy First Steps. This free program provides support and information. Call **1-877-813-3417 (TTY 711)** to learn more.

A happy pregnancy

Behavioral health for expecting moms

Having a baby can be hard. But you don't have to do it alone. Your health care provider can help you with any questions you may have. She or he can also show you other helpful services that are available. Some things to look for and ask your health care provider about are:

- Do you feel depressed or anxious?
- Are you trying to quit drugs, alcohol or smoking?
- Do you have questions about your medications?
- Are you worried about domestic violence?
- Do you have a place to live?
- Do you have enough food to eat?
- Is getting to your appointments difficult for you?

Need help? We care about the health and well-being of you and your baby. If you have any questions, call Member Services toll-free at **1-800-318-8821 (TTY 711)** Monday– Friday, 8 a.m.–7 p.m. EST.

The right care

How utilization management works

UnitedHealthcare Community Plan does utilization management (UM). All managed care health plans do. It's how we make sure our members are getting the right care at the right time and in the right place.

A doctor reviews all coverage requests when the care does not seem to meet guidelines. Approval or denial decisions are based on care and service as well as your benefits. The decisions are not made because of financial or other rewards.

Members and doctors have the right to appeal denials. The denial letter will tell you how to appeal. The appeal request must be submitted within 90 days of the denial. Information on how to appeal can be found in your Member Handbook and on our member website at myuhc.com/CommunityPlan.

Questions? Our Member Services team can help you with an appeal. Just call **1-800-318-8821 (TTY 711)**, Monday–Friday 8 a.m.–7p.m. EST toll-free and tell them you would like to appeal a denied claim.

Your child's partner in health

Your child's primary care provider (PCP) is the person you turn to when your child is sick. He or she provides or coordinates your child's health care. But the PCP also wants to see your child when he or she is well. Well visits help the provider get to know you and your child. They are also a good time for:

- important screenings and tests
- needed immunizations
- checking on chronic conditions
- monitoring any medications your child takes
- discussing any concerns about your child's prescriptions
- coordinating care given by any specialists your child sees
- discussions about development, safety and other topics

When you see your child's PCP, tell him or her about:

- any medications or supplements your child takes
- any other providers your child sees, such as specialists or alternative providers
- any tests or treatments your child has had
- any mental health treatment your child gets

Well visits are covered at no cost to you. Is your child due for a well visit? Call your child's PCP to make an appointment today.

The 2016 Maryland Healthy Kids Early Periodic Screening Diagnosis and Treatment (EPSDT) schedule is available at UHCCCommunityPlan.com under Member Information. There are changes to the schedule for 2016.

See the PCP. You and your child should feel comfortable with your PCP. If you are not, choose a new one. Visit myuhc.com/CommunityPlan or use

the **Health4Me** app. Or call Member Services toll-free at **1-800-318-8821 (TTY 711)** Monday–Friday, 8 a.m.–7p.m. EST.

Farmers market season is here!

Did you know farmers markets offer locally grown fresh fruits and vegetables? Farmers markets are found throughout the state. Many accept Women, Infants, and Children (WIC) vouchers as well as the Supplemental Nutrition Assistance Program (SNAP).

Visiting these markets can be fun for the entire family. Some even have live music and activities for children.

UnitedHealthcare Community Plan conducts healthy cooking demonstrations at farmers markets in the communities of Catonsville, Crossroads, Druid Hill Park, Randallstown and Waldorf. Come see us and try a yummy sample!

Find a farmer's market. Look for cooking demonstration dates and times on our member website at UHCCCommunityPlan.com. To find a market near you, visit the Maryland Farmers Market Association website at MarylandFMA.org.
