

THE KEY TO A GOOD LIFE IS A GREAT PLAN HealthTALK

If you need to receive this newsletter in a different format (such as another language, large print, Braille, or audio tape), please call the Member Helpline at **1-800-348-4058 (TTY 711)**.

What do you think?

In a few weeks, you may get a survey in the mail. It asks how happy you are with UnitedHealthcare Community Plan. If you get a survey, please fill it out and mail it back. Your answers will be private. Your opinion helps us make the health plan better.

Take care

You can avoid the emergency room.

When you are sick or hurt, you don't want to wait to get medical care. Choosing the right place to go can help you get better, faster care.

Hospital emergency rooms are for major medical emergencies only. Go to one only when you think your illness or injury could result in death or disability if not treated right away.

Instead, call your primary care provider's (PCP's) office first when you need care. You might get an appointment for later that day. You can even call at night or on weekends.

If you cannot get in to see your doctor, you could go to an urgent care center. Many of them are open at night and on weekends.

Baby be safe

Without treatment, one out of four pregnant women with HIV will give the virus to their babies. HIV is the virus that causes AIDS. Fortunately, there is a treatment that works very well.

Pregnant women who take certain drugs very rarely give their babies HIV. The drugs are called antiretrovirals. Babies take the drugs for a short time after they are born.

Also, it's important for women with HIV to not breast-feed their babies. This can reduce the number of babies with HIV.

Today, because of prevention and treatment, only a small number of babies are born with HIV in the United States each year.

 **Pregnant?** Planning to get pregnant? Make sure you get tested for HIV. Need a woman's health care provider? Visit myuhc.com/CommunityPlan or use the **Health4Me app**.

Pregnant?

Get pregnancy and postpartum care.

If you are pregnant, be sure to start pregnancy care early. Go to all of your doctor visits. Unless there is a medical reason, your pregnancy should continue for at least 39 weeks. Babies born early are at risk for health problems. These include breathing, temperature, feeding, or other problems.

After you give birth, be sure to go to your postpartum visit. It is just as important as your pregnancy visits. Your doctor will want to see you by six weeks to check for healing, depression, family planning, and breast-feeding.

 **Pregnant?** UnitedHealthcare Community Plan has a program that can help you. It's called Healthy First Steps. Call **1-800-599-5985 (TTY 711)** to see how you can join.

Ask Dr. Health E. Hound

Q: Why does my child need to be tested for lead?

A: Lead is found in older homes, in soil near busy roads, or in some imported products. Children can inhale or swallow lead. Lead poisoning can cause serious problems. It can affect children's blood, bones, or brain. It can cause slow growth or developmental problems.

Many children with lead poisoning don't have symptoms. That's why testing is important. Experts recommend testing at ages 1 and 2. The test is done on a few drops of blood. If the test finds lead, treatment can help. Cleaning up sources of lead can prevent lead poisoning from getting worse.

Don't let diabetes take your sight.

Diabetic retinopathy is a common complication of diabetes. It damages the blood vessels in the eye. Symptoms rarely start until the damage is bad. Treatment can stop it from getting worse. But it can't reverse the vision loss that already happened.

That's why it is so important to have a diabetic eye exam every year. It can catch the problem before you have symptoms. The test is quick and painless.

People with diabetes are also at higher risk for other eye diseases. These include cataracts and glaucoma. Good control of your diabetes can help prevent these eye diseases.

We can help. If you have diabetes or another chronic condition, we can help. We offer disease management programs. They help you manage your condition. To learn more, call Member Services toll-free at **1-800-348-4058 (TTY 711)**.

Know your drug benefits

Visit our website to learn about your prescription drug benefits. It includes information on:

- 1. What drugs are covered.** There is a list of covered drugs.
- 2. Where to get your prescriptions filled.** You can find a pharmacy near you that accepts your plan. You may also be able to get certain drugs by mail.
- 3. Rules that may apply.** Some drugs may only be covered in certain cases. For example, you might need to try a different drug first. (This is called step therapy.) Or you might need approval from UnitedHealthcare to use a drug. (This is called prior authorization.) There may also be limits to the amount you can get of certain drugs.

Look it up. Find information on your drug benefits at myuhc.com/CommunityPlan. Or, call Member Services toll-free at **1-800-348-4058 (TTY 711)**.

Your privacy is important

We take your privacy seriously. We are very careful with your family's protected health information (PHI). We also guard your financial information (FI). We use PHI and FI to run our business. It helps us provide products, services, and information to you.

We protect oral, written, and electronic PHI and FI. We have rules that tell us how we can keep PHI and FI safe. We don't want PHI or FI to get lost or destroyed. We want to make sure no one misuses it. We use it carefully. We have policies that explain:

- how we may use PHI and FI
- when we may share PHI and FI with others
- what rights you have to your family's PHI and FI

It's no secret. You may read our privacy policy in your Member Handbook. It's online at myuhc.com/CommunityPlan. You may also call Member Services toll-free at **1-800-348-4058 (TTY 711)** to ask us to mail you a copy. If we make changes to the policy, we will mail you a notice.

Your partner in health

See your PCP for a well visit.

Your primary care provider (PCP) wants to see you for a checkup each year. This visit helps you and your PCP get to know each other. Well visits are also a good time for:

- important screenings and tests
- needed immunizations
- checking on chronic conditions
- monitoring medications you take
- coordinating care given by any specialists you see
- counseling about a healthy lifestyle
- discussions about mental health, substance use, safety, and other topics

When you see your PCP, tell him or her about:

- any medications or supplements you take
- any other providers you see, such as specialists or alternative providers
- any tests or treatments you have had and the results
- any mental health or substance use treatment you get

Well visits are covered at no cost to you. Has it been more than a year since your last well visit? Call your PCP to make an appointment today.

Need a doc? You can change your PCP at any time.

To find a new PCP, visit myuhc.com/CommunityPlan or use the **Health4Me** app. Or, call Member Services toll-free at **1-800-348-4058 (TTY 711)**.

Under Titles VI and VII of the Civil Rights Act of 1964 (Title VI and VII) and the Americans with Disabilities Act of 1990 (ADA) Section 504 of the Rehabilitation Act of 1973 and the Age Discrimination Act of 1975, UnitedHealthcare Community Plan prohibits discrimination in admissions, programs, services, activities, or employment based on race, color, religion, sex, national origin, age, and disability. UnitedHealthcare Community Plan must make a reasonable accommodation to allow a person with a disability to take part in a program, service, or activity. Auxiliary aids and services are available upon request to individuals with disabilities. For example, this means that if necessary, UnitedHealthcare Community Plan must provide sign language interpreters for people who are deaf, a wheelchair accessible location, or enlarged print materials. It also means that UnitedHealthcare Community Plan will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance if at all possible. To request this document in alternative format or for further information about this policy, please contact Member Services at **1-800-348-4058 (TTY 711)**.
